Traditional Chinese edition of The Collapse of Parenting by Leonard Sax.

The Islamic tradition is rich with values that parents strive to imbue in their children: respect, responsibility, integrity, love and more. Parenting is all too often filled with sleepless nights, tears, and anxiety followed by endless doubts: "Did I do my best?" "What could I have done differently?" "Am I responsible?" Positive Discipline, a philosophy conceptualized by Dr. Jane Nelsen, provides a powerful model for channeling parenting struggles into proven methods that yield results. Positive Parenting in the Muslim Home addresses real challenges faced by real families. This comprehensive book is essential for parents, caregivers, and educators seeking to nurture a grounded parent-child relationship built on connection. It is a book of home. It invites the reader to: - Approach parenting in Islam as a process of love and guidance - Apply Positive Discipline tools to nurture Islamic values in matters of faith, relationships, and everyday life - Empower children to be responsible, capable and proactive individuals - Address sensitive issues constructively, including sex, drugs, bullying, and youth radicalization - Resolve conflicts by focusing on solutions rather than punishments Authors Noha Alshugairi and Munira Lekovic Ezzeldine share timeless principles, describe 49 effective parenting tools, and guide through various parenting challenges. Their experience spans all stages of development from birth to adulthood. The authors masterfully transform theoretical Islamic principles into living realities. Have you noticed that your sweet little son has become rebellious and impossible to manage? Is it becoming increasingly difficult to reach an accord and every misunderstanding turns into a fight? Don't be scared, your son is becoming a Teenager. Like any parent, you find it hard to accept that your little baby is growing so fast. Until a few years ago you were able to keep him under control and he was the most obedient child in the world. But lately you've started to notice changes. He has changed his way of dressing, he wants to look bigger to impress his friends and he no longer respects the rules of the house. I want to reassure you, your child has no problem at all, he is only undergoing a series of changes both physical and mental that can confuse him and find him unprepared. His behavior is only his way of reacting to these changes. Your role is essential at this stage in his life. You have the task of guiding him and directing him to the right path, otherwise it could assume attitudes that will create problems in the future. The choices that are made during this period can affect the entire span of his life, so it is right to face the situation with the right preparation and knowledge. In this book you will discover: How to understand when your child is becoming a teenager How to change attitude towards him How to continue to protect him but make him take its responsibilities How to connect with him and his new world The best way to teach your child about useful life skills How to raise a responsible

teenager This is not only a theoretical book, inside this book you will find practical situations of daily life with the right method to deal with them. In this book I have collected both common problems such as poor academic performance, bad friendships, and situations that are more harmful and difficult to manage such as drug use or illegal and harmful behavior. The advice contained in the book can be applied to both males and females and there are examples for both. Stop hoping that things adjust themselves, hope is not a strategy and without a right strategy what is now a small problem could turn into something much bigger and irreparable. Don't waste time, every single experience in the life of a teenager could mark him for life. If You've Ever Allowed a Three-Year-Old's Temper Tantrum to Ruin You, Then Keep Reading... and learn the no-nonsense approach to positive parenting and raising emotionally intelligent kids You're in the middle of the supermarket and your three-year-old is in full meltdown mode over an icicle. There's yelling, there are tears and snot flying everywhere. Do you: Give in and buy the icicle because you're way too embarrassed Engage in a yelling match with your kid, i.e. lose your marbles completely Drag your kid yelling and screaming out of the supermarket Calmly but firmly stand your ground and tell your little one there are snacks waiting for them at home? Now that you look at it, the correct answer is probably obvious. In the heat of the moment, however, most parents will react instinctively and they'll do irrational things due to stress and exhaustion. Let's face it - even the best and kindest of kids throw temper tantrums. In fact, statistics show that 87% of 18 to 24-month-olds will have a total meltdown every once in a while. No parent wants to lose control and shout at their child, but it happens. Maybe you think that at least you are disciplining your child... but studies show that long-term it leads to poorer parent-child relationship and is consistently ranked the worst disciplining method by child behavior psychologists. Aileen Jarvis & Rowan Roffe are child developmental specialists and have seen this happen over and over again. One of

the most common issues they faced when working with children has always been the way in which the parents are just so radically underprepared to cope with the stress of raising a child. While working together they realized that if they wanted to make a real and lasting impact on a child's life, they had to start at the core; they had to start with the parents. Ever since then they have worked tirelessly to bridge the divide between parent and child and teach parents the secrets of mindful parenting. In this Positive Parenting 2-in-1 Value Bundle, you will discover: What exactly is parenting with purpose - actionable tips and no mumbo jumbo How your child's mind functions - little ones don't process information as adults! Ultimately, your goal will always be to raise your child as best as possible. To love them and care for them. No more will you have to worry about the stress of a tantrum in public or your teen not obeying curfew. A supportive guide that gives busy moms permission to care for themselves, from a popular parenting blogger with one million Facebook followers "Would you rather have a perfect mom, or a happy one?" This is the question that popular parenting blogger Rebecca Eanes couldn't get out of her head. So she asked her school-age son, who didn't miss a beat in responding: "A happy one." Thus began a journey of reflection and repair work, as Rebecca asked herself an even harder question: How can I rediscover everyday joy amid the chaos of schedules, homework, and housework--not to mention the guilt, comparisons, loneliness, fear, and overwhelm? In other words, how can I become a happy mom again? In this relatable guide, Rebecca walks readers through the process of getting back to happy, for your own sake as well as your family's. Going beyond the usual advice about finding balance, embracing gratitude, and not sweating the small stuff, her hard-won advice is written by a busy mom in the trenches. Topics include: * Letting go of perfection (or anything close to it) * Making peace with the past--including the pain of disappointment, loss, and the roads not taken * Tuning in to your own wants and needs--and tuning out the comparisons, "shoulds," and noise of social media * Finding magic in the mess * Choosing joy over fear and worry * Creating healthy boundaries so that everyone in your life can thrive (including you!) Filled with fresh insights, simple strategies, and aha moments, this is that rare book you'll want to read, share, and return to for a booster shot of confidence, connection, and joy.

"Caring deeply about our children is part of what makes us human. Yet the thing we call 'parenting' is a surprisingly new invention. In the past thirty years, the concept of parenting and the multibillion dollar industry surrounding it have transformed child care into obsessive, controlling, and goal-oriented labor intended to create a particular kind of child and therefore a particular kind of adult. In *The Gardener and the Carpenter*, the pioneering developmental

psychologist and philosopher Alison Gopnik argues that the familiar twenty-first-century picture of parents and children is profoundly wrong--it's not just based on bad science, it's bad for kids and parents, too. Drawing on the study of human evolution and her own cutting-edge scientific research into how children learn, Gopnik shows that although caring for children is profoundly important, it is not a matter of shaping them to turn out a particular way. Children are designed to be messy and unpredictable, playful and imaginative, and to be very different both from their parents and from each other. The variability and flexibility of childhood lets them innovate, create, and survive in an unpredictable world. 'Parenting' won't make children learn--but caring parents let children learn by creating a secure, loving environment."--Provided by publisher. Get ready to learn how to promote growth and teach good behavior positively and effectively, while cultivating respect, communication, and healthy boundaries within the home! Improve your parenting skills with this parenting guide. This book on parenting will help you get started with the basics of positive parenting as well as practical tips and strategies for applying it in your home.

Are you struggling with being a parent and wanting a method that ensures your relationship with your child is strong and based in love? Positive parenting is a tested parenting style that emphasizes mutual respect, trust, patience, and consequences instead of punishments Positive parenting has a lot of benefits that have been observed as a child grows older Benefits of positive parenting include better emotional development, the ability to control and understand emotions, stronger relationships between a child and parent, and a higher emotional intelligence in life, which is key to success and happiness. What traits do you need to become a positive parent? This book sets forth six keys a parent needs in order to adopt the positive parenting method: Focusing on your own emotions and behavior Being consistent Giving yourself grace Understanding the reason behind a child's behavior Giving attention to good behavior Actively working on a child's emotional intelligence This book breaks those six keys into two chapters, so you can see what you need to do for yourself first, and then what you need to do for your child The chapter on what to do for yourself provides an organized look at what you need to do to become patient, how to be more consistent, and how to give yourself grace. You'll read about specific ways on how to accomplish these goals and real-world examples. The hardest part about positive parenting is switching from punishments to consequences Traditional punishments often use shame and guilt to try

and correct behavior. Positive parenting uses the concept of "consequences" instead, which is less harmful to the relationship between child and parent. This book acknowledges the trickiness of consequences, and so provides thorough explanations and examples, such as: Giving your child an alternative to a bad behavior, so you redirect their attention Letting a child's mistake have natural consequences, so they learn what happens in the real world Stepping in with logical consequences, which let you set limits for your child in a reasonable and fair way Using verbal praise to celebrate good behavior Celebrating effort instead of specific accomplishments Good communication is key in any relationship, and it's especially essential in positive parenting Good communication ensures a strong bond between a parent and child, so you will learn how to improve that skill with ideas like having conversations while doing something fun with your kid, becoming an active listener, and acknowledging that communication will change as your child grows up. Every parent makes mistakes, and they can be used as learning experiences The last chapter in this book explores the most common mistakes parents tend to make, so you can have a better understanding of how to avoid them. The kinds of mistakes you make change depending on the age of your child, so you'll see what tends to happen with parents of toddlers, middle-schoolers, and kids of all ages. Positive parenting can transform the relationship you have with your child. With its core values of respect, trust, and patience, positive parenting can help make conflict a less frequent occurrence in your home, and build up a relationship that stays strong

Parenting pozitiv este mai mult decât o carte pentru p?rin?i. Este un ghid al leg?turilor interumane. Rebecca descrie un parcurs merit s? cl?deasc? familii fericite, unite prin leg?turi profunde. — AMY MCCREADY, autoarea c?r?ii The „Me, Me, Me“ Epidemic Noua carte scris? de Rebecca Eanes scoate în eviden?? faptul c? paren-tingul înseamn? mult mai mult decât a-i face pe copii s? respecte ni?te reguli. Este vorba despre vie?i ?i rela?ii reale, despre oameni adev?ra?i; despre pove?ti cu mame, ta?i ?i copii din lumea noastr? de zi cu zi ?i despre cum le putem transforma în ni?te pove?ti cu totul ?i cu totul minunate. — ANDY SMITHSON, www.truparenting.net Sprijinindu-?i argumenta?ia pe cercet?ri din domeniul neuro?tiin?elor ?i al dezvolt?rii umane, Eanes ne arat? cum trebuie s? creasc? p?rin?ii odat? cu copiii lor ?i cum aceast? c?l?torie în tandem îi ajut? pe cei mici s? î?i ating? poten?ialul maxim. — MARILYN PRICE-MITCHELL, autoarea volumului Tomorrow's Change Makers REBECCA EANES este creatoarea site-ului positive-parents.org ?i a comunit??ii Positive Parenting: Toddlers and Beyond, pe Facebook. Pagina cre?te s?pt?mânal cu mii de membri dornici s? descopere binefacerile unei altfel de educa?ii, în care cultivarea sim?ului r?spunderii ?i c?utarea solu?iilor împreun? cu copilul dau rezultate mai bune decât pedepsele, exemplul autodisciplinei func?ioneaz? mai bine decât priva?iunile ?i iubirea oferit? necondi?ionat rezolv? mai multe probleme decât distan?area de copilul care tocmai a gre?it. Autoare a mai multe bestselleruri despre parentingul pozitiv, Rebecca Eanes nu se consider? o expert?, ci o mesager?. Scrie cu c?ldur? ?i afec?iune, ca de la p?rinte la p?rinte, direct din tran?eele maternit??ii. Cândva a avut curajul de a face o schimbare profund?: trecerea de la metodele tradi?ionale de cre?tere a copiilor la parentingul pozitiv. În prezent, dup? opt ani de studiu independent ?i experien?e care i-au modelat percep?iile, este fericit? s? î?i îndrume cititorii pe calea bucuriei ?i a iubirii – pe cât de imperfect?, pe atât de luminoas?. Ai ajuns la cap?tul r?bd?rii: copilul t?u refuz? pentru a zecea oar? s? fac? ce îi spui, te sim?i neputincios în fa?a acceselor de furie, pierzi controlul ?i te cople?esc gândurile negre. Ei bine, poate a venit timpul s? prive?ti lucrurile altfel. Copiii nu sunt adul?i mici: prichindelul t?u de trei ani nu este în stare s? se poarte înadins ca un tiran f?r? scrupule, la fel cum nici bebelu?ul de câteva luni nu poate elabora strategiile unui manipulator viclean. Poate c? el doar încearc? s? î?i spun? ceva ?i înc? nu ?tie cum. Are nevoie de ajutorul t?u. Copiii no?tri ne-au fost încredin?a?i ca s? îi preg?tim, cu iubire, pentru lumea plin? de provoc?ri care îi a?teapt?. Ca s? le facem fa?? împreun?, Rebecca Eanes ne recomand? parentingul pozitiv: o metod? alternativ? de educare a copiilor bazat? pe

ata?ament, respect reciproc, atitudine proactiv?, empatie ?i disciplin? pozitiv?. Convins? c? problemele vie?ii nu se rezolv? prin pedepse ?i c? lipsa lor nu este totuna cu lipsa disciplinei, autoarea ne îndeamn? s? ne apropiem suflete?te de copiii no?tri, f?r? team?, ?i ne propune solu?ii simple cu ajutorul c?rora putem ajunge la armonie în via?a de familie. REBECCA EANES este creatoarea site-ului positive-parents.org ?i fondatoarea comunit??ii Positive Parenting: Toddlers and Beyond, pe Facebook. Semneaz? volumul The Newbie's Guide to Positive Parenting, bestsellerul Positive Parenting: An Essential Guide (Parenting pozitiv. Ghid esen?ial, Curtea Veche Publishing, 2018) ?i este coautoare a c?r?ii Positive Parenting in Action: The How?To Guide for Putting Positive Parenting Principles into Action in Early Childhood. De ase-menea, contribuie în calitate de editor colaborator la revistele Creative Child ?i Baby Maternity, public? regulat în Motherly ?i activitatea ei este apreciat? de Psychology Today, Mind Body Green, Maria Shriver, blogul Institutului Gottman, Boston Parents Paper, Brightly. În prezent studiaz? ca s? se acrediteze ca instruc-tor de parenting con?tient. Din perspectiva mamei care ?i-a schimbat modul de gândire, trecând de la parenting tradi?ional la parenting pozitiv, Rebecca î?i împ?rt??e?te zilnic inspira?ia ?i în?elepciunea dobândite cu trud?, prin intermediul comunit??ii sale tot mai numeroase de pe Facebook. Transformarea propriei familii prin puterea apropierii suflete?ti a inspirat-o pe Rebecca s?-?i împ?rt??easc? experien?a, în speran?a c? ?i al?i p?rin?i vor profita de beneficiile aplic?rii metodelor paren-tingului pozitiv. Rebecca este c?s?torit? cu iubitul ei din liceu ?i ador? s? consemneze în fiecare zi momentele minunate petrecute al?turi de cei doi fii ai ei. You have a new baby, or its arrival is imminent.
