This book empowers teens by tapping into their interests and imaginations through opportunities to design unique science projects. Intriguing hands-on projects are closely tied to the Next Generation Science Standards. Fun projects like growing hydroponic plants and

attention-grabbing topics like slime and electromagnetic trains draw students into active learning. Curiosity-sparking sidebars include high-interest topics like space exploration and satellites. Through project-based learning students develop strategies for testing, analyzing data, and using critical thinking. Readers learn to present their discoveries with peer presentations. The author, a degreed chemical engineer and professional project manager, voices genuine enthusiasm for science projects.

When considering inequality, one goal for educators is to enhance critical engagement to allow learners an opportunity to participate in an inquiry process that advances democracy. Service?learning pedagogy offers an opportunity to advance engaged?learning opportunities within higher education. This is particularly important given the power dynamics that are endemic within conversations about education, including the conversations around the Common Core, charter schools, and the privatization of education. Critical inquiry is central to the ethos of service?learning pedagogy, a pedagogy that is built upon community partner

participation and active reflection. Within higher education, service?learning offers an important opportunity to enhance practice within the community, allowing students to engage stakeholders and youth which is particularly important given the dramatic inequalities that are endemic in today's society.

The Harvard Business Review Project Management Collection is for anyone serious about project management. Project Management for Profit shows every company owner and project manager—at businesses large and small—how to run projects differently. Reinventing Project Management, based on an unprecedented study of more than 600 projects in a variety of businesses and organizations around the globe, provides a new and highly adaptive model for planning and managing projects to achieve superior business results. Also included in this collection are Managing Projects Large and Small, which will walk you through every step of project oversight from start to finish, and the HBR Guide to Project Management, which will help you: build a strong, focused team, break major objectives into manageable tasks, create a schedule that keeps all the moving parts under control, monitor progress toward your goals, manage stakeholders' expectations, and wrap up your project and gauge its success.

Henry O. Pollak Chairman of the International Program Committee Bell Laboratories Murray Hill, New Jersey, USA The Fourth International Congress on Mathematics Education was held in Berkeley, California, USA, August 10-16, 1980. Previous Congresses were held in Lyons in 1969, Exeter in 1972, and Karlsruhe in 1976. Attendance at Berkeley was about 1800 full and 500 associate members from about 90 countries; at least half of these come from outside of North America. About 450 persons participated in the program either as speakers or as presiders; approximately 40 percent of these came from the U.S. or Canada. There were four

plenary addresses; they were delivered by Hans Freudenthal on major problems of mathematics education, Hermina Sinclair on the relationship between the learning of language and of mathematics, Seymour Papert on the computer as carrier of mathematical culture, and Hua Loo-Keng on popularising and applying mathematical methods. Gearge Polya was the honorary president of the Congress; illness prevented his planned attendence but he sent a brief presentation entitled, "Mathematics Improves the Mind". There was a full program of speakers, panelists, debates, miniconferences, and meetings of working and study groups. In addition, 18 major projects from around the world were invited to make presentations, and various groups representing special areas of concern had the opportunity to meet and to plan their future activities.
