Over 900 references to monographic and journal literature about the use of computers in biology and medicine. Emphasis in the annotations is on computer applications, rather than on methods and results generally common to authors' abstracts. Entries arranged by topics under bibliographies, monographs, and articles. Author, subject indexes.

A biographical record of contemporary achievement together with a key to the location of the original biographical notes.

CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences. The database provides abstracts of journal articles and citations to book reviews drawn from over 1,800+ serials publications, and also provides abstracts of books, book chapters, dissertations, and conference papers. This compilation ... contains brief abstracts of projects being conducted by national foundations, college and university research groups, governmental agencies and voluntary health organizations.
