A popular Japanese children's book for couples- the heart-warming story created by Takeshiko and Suzuki Mamoru, claiming to be a housekeeper cat who knows everything, but can't do any housework. Can she continue to stay at home? Oh, so busy, really busy! So busy I want to call a cat to help. Early in the morning, the mother who was busy doing housework couldn't help muttering to herself. Ding Dong... the doorbell of the hallway rang suddenly. Mom opened the door and took a look, wow! A striped cat stood at the door, carrying a small scarf in his hand. I'm the housekeeper cat. From today, let me help with the housework. Please advise me.
