Our fear of the world ending, like our fear of the dark, is ancient, deep-seated and perennial. It crosses boundaries of space and time, recurs in all human communities and finds expression in every aspect of cultural production - from pre-historic cave paintings to high-tech computer games. This volume examines historical and imaginary scenarios of apocalypse, the depiction of its likely triggers, and imagined landscapes in the aftermath of global destruction. Its discussion moves effortlessly from classic novels including Aldous Huxley's *Brave New World*, George Orwell's *Nineteen Eighty-Four* and Margaret Atwood's *Oryx and Crake*, to blockbuster films such as *Blade Runner*, *Armageddon* and *Invasion of the Body Snatchers*. Lisboa also takes into account religious doctrine, scientific research and the visual arts to create a penetrating, multi-disciplinary study that provides profound insight into one of Western culture's most fascinating and enduring preoccupations.

Shares new documents to expose the sinister alien influence in world governments, financial systems, and scientific institutions throughout history • Shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens authority to abduct humans for "research" • Reveals how Reptilian-influenced ex-Nazis infiltrated the U.S. government • Explains how the Reptilians have created alien-human hybrids under their control to replace the human population Long ago, the Galactic

Federation sent the Atlans, a fierce group of humans from the Pleiades, to Earth to confront the newest colony of the combative ever-spreading alien race known as the Reptilians. The ensuing battle sank the continent of Lemuria and drove the Reptilians underground beneath the Indian subcontinent as well as to Antarctica. Able to shapeshift to appear human, the Reptilians then infiltrated the Atlantean civilization, abducting humans and creating Reptilian hybrids. As Len Kasten shows, this technique of infiltration and hybridization prior to an all-out attack has been the hallmark of Reptilian conquest throughout the galaxy. Chronicling the history of the Reptilian Empire's influence on Earth and their conquest of 21 star systems, Kasten reveals how the human race is enmeshed in a skillfully concealed plot to enslave humanity and exploit our planet's physical and biological resources. Revealing Hitler's pact with extraterrestrials and the Reptilian influence on the Nazi state, he shares new documents that disclose the rescue and rehabilitation of Nazi war criminals to assist in the Cold War, which then corrupted many U.S. government institutions. Focusing on crucial events in the decade after World War II, he examines the Reptilians' human allies, the Illuminati, who control the levers of financial, technological, and military power throughout the world through various secret societies. He shows how Eisenhower's treaty with the Greys, signed at Holloman Air Force Base in 1954, gave the aliens permission to take humans up to their spaceships, ostensibly for genetic study--in return for alien technology--and how these abductions led to the creation of a hybrid race under Reptilian mind control. He also explains how Kennedy was assassinated by the CIA because of his plans to rout out this Nazi-Reptilian presence. Contrasting the Reptilians with the benevolent Ebens, the aliens from Zeta Reticuli who crashed at Roswell, Kasten exposes the stealthy tactics of the Reptilians, their relationship with the Greys, and their advanced genetic bio-technology and teleportation abilities--as well as what we need to do to defeat their plans.

And no one can stop them. Except that somewhere, buried in the distant stars of the galaxy, hope remains alive. On a ringworld known as Elysia, Jace and his crew search desperately for answers. It was here that the Celestials first discovered alien technology and used it to transform themselves. If a weakness is to be found, then perhaps it exists somewhere in this lost, forgotten ring. But the enemy is already on their way... and time is running out. Experience this fourteenth entry in the bestselling Renegade Star series from USA Today bestselling author J.N. Chaney. If you're a fan of Firefly, Battlestar Galactica, and Indiana Jones, you'll love this scifi thrill ride.
