While you might be able to easily apply for a job advertisement you come across online, there is no guarantee that you will get the job. In fact, many people apply to job after job without so much as hearing back from the company. Even if a person gets an interview, there is no guarantee that they will leave a good impression. These days, despite more people having college degrees than ever before, it has become increasingly difficult to find a job. Whether you are hoping to get a high-level job at an elite company or an entry-level position at a local store, you are likely to be met with a number of challenges. Yet, it doesn't have to be this way. Do you wish that finding an open position, writing a cover letter, crafting a resume, acing an interview, and getting a job was a simple matter of knowing how to play the game? This doesn't have to be a dream. While the "game" of life is certainly not something with strict questions and answers, as every person is different, there are many answers that can get you to success. Whatever be the field of study or whatever be the professional courses undertaken, getting a job is the ultimate goal. Getting a job interview and cracking the interviews are the steps to get a job. Confidence, body language and the capacity to answer questions are among the most important things to learn. You might be preparing yourself for an interview for a long time now. You are leaving no stones unturned to be fully prepared for your upcoming interview. You are attending dummy interview sessions, answering mock interview questions and doing a lot more. The best way to get ready for any interview is to take out some time to review the commonly asked questions, and have the answers ready for them. If you are ready with your answers, you will be able to remain quite free from your interview stress. What will you find in these two books? In The First Book You Will Find: How to find the right job by analyzing your strengths, weaknesses, and interests. Using personality testing in your job search. How the internet, newspaper, and other resources can be used to find a job. Whether or not you should use an employment agency. Understanding the importance of the cover letter and how to craft one that will grab an employer's attention. Crafting an exceptional resume, even with little to no experience. Everything you need to know to ace a job interview, including preparations, how to answer questions, what to expect, and test explanations. What to do after you get the job. In The Second Book You Will Find over 180 Questions & Answers: Opening questions Background questions Interest questions Education questions Experience questions Behaviour questions Case questions General culture questions Would you like to know more? Is your resume an advertisement or an obituary? Give your resume CPR! You can make your resume TALK! Mr. Hart's suggestions can help make your resume educate the potential employer.

Under IFRS, U.S. GAAP, and the SEC rules and regulations, business enterprises must recognise measure and disclose information regarding equity items on the face of the statement of financial position, other specific statements, or in the notes to the financial statements. However, under both IFRS and U.S. GAAP there is no all-inclusive general standard on stockholders' equity. This book clarifies the process of reporting stockholders' equity in a manner which can be reconciled under all the relevant standards. "Not only has the author addressed the informational needs of the players in the accounting industry, he has also drawn, based on his vast experience, practical implications of reporting under both standards." —Noraini Mohd
