The Mojo Handbook: Theory to Praxis offers a detailed and engaging crash course on how to use mobile tools to create powerful journalistic stories. Drawing on both theoretical underpinnings and practical techniques, the book outlines the fundamentals of mobile journalism methods, by placing mobile storytelling within a wider context of current affairs, documentary filmmaking and public relations. The book offers expert advice for how to use storytelling skills to transform mobile content into engaging and purposeful user-generated stories for audiences. Topics covered include tips for recording dynamic video and clean audio, conducting interviews on your phone and editing and post-production processes, as well as advice on how to handle copyright issues and a primer on journalistic ethics. The book also includes a comprehensive glossary of terms to help students navigate the video production and mobile journalism world. The Mojo Handbook is a valuable resource for aspiring multimedia professionals in journalism, strategic and corporate communication, community and education, as well as anyone looking to incorporate mobile into their visual storytelling tool kit.

This book aims to bring together two movements -

multiculturalism and anti- racism - which, though having aims in common, have been at arms length in the past. Differences of emphasis have meant that classroom practice has been the natural realm of multiculturalism, while anti-racism has been dissatisfied with an approach that accentuates life-style at the expense of challenging or changing the racism that minority students experience. In these debates, there has been a concentration on culturally specific topics and this book goes beyond national boundaries to find how international concerns and contexts might provide answers to problems faced in single countries. Leading figures in the USA, Canada, South Africa, the UK and Australasia write on the issues.

Charles Barrett's passion for serving students and philosophical orientation to public education. Using anecdotes to illustrate theoretical constructs such as Maslow's Hierarchy of Needs, Bronfenbrenner's Ecological Systems Theory, behavioral consultation, non-discriminatory assessment, social justice, and systems change, this informative narrative is filled with effective strategies for clinical practice. To facilitate personal reflection and small group discussion, questions and Resources for Professional Learning are included at the end of each chapter. An excellent compendium for educators-particularly school psychology graduate students, faculty, and practitioners-this book will encourage and inspire individuals in their service to children, families, schools, and communities. This book, written in Dr. Turner's unique college lecture style, has real world, practical suggestions that can be immediately implemented. His straightforward, "matter of fact" approach effectively conveys important points without "fluff." As a former teacher, counselor, and academic dean, his perspective on education is well rounded. His formal education includes two master's degrees, a doctorate in psychology and post-doctoral work in autism and behavior modification. "Dr. Turner's book is an excellent first step in the right direction. It is an example of his commitment to doing what is right for students. I found the sections on assessment and

the IEP process particularly enlightening. This book would be an informative read for any individual involved in the IEP process..” - William Shupe, M.A., NPS Principal

“Dr. Turner has written a comprehensive book that can save many interns, first year school psychologists, and even seasoned veterans valuable time if his strategies are utilized. Many people (professionals too) confuse activity with being successful and effective. However, many school psychologists are so busy running from meeting to meeting and are in “stomping out fires” mode and the day is over before they knew it started. They are very active, but not very effective. Dr. Turner shows us how planned activity and organization are effective. Dr. Turner provides us with a common sense model of how to learn good professional habits and make them a part of our professional and daily life.” - Roger McCoy, PPS school psychologist for Riverside County SELPA

“This book is very thorough and innovative in the progressive future of school psychology. As a new School Psychologist entering the field, I love the detailed information and direction.” – Alice Bass, School Psychologist Intern

Dr. Turner is a licensed educational psychologist in California, lead school psychologist in a mid-size district, private pilot, Marine combat veteran, and adjunct college professor. He is a mentor to interns, guiding them through their 1200 intern hours required by the state.

As a former member of the Board of Directors for the California Association of School Psychologists, he is aware of the many pressures and legal issues facing educational psychology and special education. Dr. Turner also received a research grant to study strengths-based interventions and is a promoter of shifting the perspective from “strengthening weaknesses” to “building on strengths.”

Critical studies of youth play an increasingly important role in educational research. This volume adds to that ongoing conversation by addressing the methodological lessons learned from key scholars in the field. With a focus on “the doing” of critical youth studies in ways that center praxis and relational care in work with youth and their communities, the volume showcases scholars discussing their research and reflecting on the practical strategies they have used to operationalize their conceptions of knowledge in youth-centered research projects. Each chapter addresses the research features, challenges, tensions, and debates of the project; engagement with communities; and relationality, reciprocity, and responsibility to participants. The focus throughout is on qualitative approaches that are humanizing, anti-colonial, and transformative.

While many educators acknowledge the challenges of a curriculum shaped by test preparation, implementing meaningful new teaching strategies can be difficult. *Active Learning* presents an examination of innovative, interactive teaching strategies that were successful in engaging urban students who struggled with classroom learning. Drawing on rich ethnographic data, the book proposes participatory action research as a viable approach to teaching and learning that supports the development of multiple literacies in writing, reading, research and oral communication. As Wright argues, in connecting learning to authentic purposes and real world consequences, participatory action research can serve as a model for meaningful urban school reform. After an introduction to the history and demographics of the working-class West Coast neighborhood in which the described PAR project took place, the book discusses the "pedagogy of praxis" method and the project's successful development of student voice, sociopolitical analysis capacities, leadership skills, empowerment and agency. Topics addressed include an analysis and discussion of the youth-driven PAR process, the reactions of student researchers, and the challenges

Philosophy for Children (P4C) is a movement that teaches reasoning and argumentative skills to children of all ages. This book looks at the progress that P4C has made in the UK in addressing issues of literacy, critical thinking, PSHE, education for sustainable development and wider issues such as bullying. Chapters identify the different theories and practices that have emerged and discuss the necessity for a reflective approach that P4C brings to education. The book highlights how this movement can fit into the early years, primary and secondary curriculum and the challenges and rewards that come with it. Chapters include: The Evolution of Philosophy for Children in the UK Pedagogical Judgement Negotiating meaning in classrooms: P4C as an exemplar of dialogic pedagogy The impact of P4C on teacher educators Being and becoming a philosophical teacher This will be an invaluable guide for all those interested in P4C and studying courses on Early Childhood Studies, Education Studies and Initial Teacher Training courses.

By introducing a framework for culturally sustaining Systemic Functional Linguistics (SFL) praxis, Harman, Burke and other contributing authors guide readers through a practical and analytic exploration of youth participatory work in classroom and community settings. Applying an SFL lens to critical literacy and schooling, this book articulates a vision for youth learning and civic engagement that focuses on the power of performance, spatial learning, community activism and student agency. The book offers a range of research-driven, multimodal resources and methods for teachers to encourage students' meaning-making. The authors share how teachers and community activists can interact and support diverse and multilingual youth, fostering a dynamic environment that deepens inquiry of the

This volume explores and evaluates community-based literacy programs, examining how they bridge gaps in literacy development, promote dialogue, and connect families, communities, and schools.

Highlighting the diversity of existing literary initiatives across populations, this book brings together innovative and emerging scholarship on the relationship between P20 schools and community-based literacy programming. This volume not only identifies trends in research and practice, but it also addresses the challenges affecting these community-based programs and presents the best practices that emerge from them. Collaborating with leading

scholars to provide national and international perspectives, and offering a clear, birds-eye view of the state of community literacy praxis, chapters cover programming in a multitude of settings and for a wide range of learners, from early childhood to incarcerated youths and adults, and including immigrants, refugees, and indigenous communities. Topics include identity and empowerment, language and literacy development across the lifespan, rural and urban environments, and partnership programs. The breadth of community literacy programming gathered in a single volume represents a unique array of models and topics, and has relevance for researchers, scholars, graduate students, pre-service educators, and community educators in literacy.

Ethics and Law for School Psychologists is the single best source of authoritative information on the ethical and legal issues school psychologists face every day. Designed specifically to meet the unique needs of psychologists in school settings, this book includes the most up-to-date standards and requirements while providing an introduction to ethical codes, ethical decision making, and the legal underpinnings that protect the rights of students and their parents. This new seventh edition has been

extensively updated with the latest research and changes to the law, with an increased focus on ethical-legal considerations associated with the use of digital technologies. Coverage includes new case law on privacy rights, electronic record keeping, the 2014 Standards for Educational and Psychological Testing, digital assessment platforms, the latest interpretations of the Individuals with Disabilities Education Act, and more. Ethics texts for counseling and psychology are plentiful, and often excellent—but this book is the only reference that speaks directly to the concerns and issues specific to psychologists in school settings. Case vignettes, end-of-chapter questions, and discussion topics facilitate deeper insight and learning, while updated instructor's resources bring this key reference right into the classroom. Keeping up with the latest research and legal issues is a familiar part of a psychologist's duties, but a practice centered on children in an educational setting makes it both critical and more complex. *Ethics and Law for School Psychologists* provides a central resource for staying up to date and delivering ethically and legally sound services within a school setting.

essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. Our Praxis II Speech-Language Pathology Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our Praxis II Speech-Language Pathology Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand.
