Featuring simple, straightforward language and voices of previous VA borrowers, this resource helps ensure service members are in the best position possible to maximize the benefits earned by their service.

This book will help notaries navigate their way around problem areas. It will also help lawyers and the public assail or defend the validity of public documents, and expose notarial malpractices. Thus, it is a step in making notarial practice in the Philippines more competent and truly dependable.

This volume is an inter-disciplinary endeavour which brings together recent research on aspects of urban life and structure by architectural and textual historians and archaeologists, engendering exciting new perspectives on urban life in the pre-modern Islamic world. Its objective is to move beyond the long-standing debate on whether an 'Islamic city' existed in the pre-modern era and focus instead upon the ways in which religion may (or may not) have influenced the physical structure of cities and the daily lives of their inhabitants. It approaches this topic from three different but inter-related perspectives: the genesis of 'Islamic cities' in fact and fiction; the impact of Muslim rulers upon urban planning and development; and the degree to which a religious ethos affected the provision of public services. Chronologically and geographically wide-ranging, the volume examines thought-provoking case studies from seventh-century Syria to seventeenth-century Mughal India by established and new scholars in the field, in addition to chapters on urban sites in Spain, Morocco, Egypt and Central Asia. *Cities in the Pre-Modern Islamic World* will be of considerable interest to academics and students working on the archaeology, history and urbanism of the Middle East as well as those with more general interests in urban archaeology and urbanism.

In his 1961 Farewell Address, President Eisenhower famously referred to the emergence of a "military-industrial complex" so powerful that it threatened to warp America's political institutions and economy. However, the military was not the only part of a blended government workforce that was growing by leaps and bounds. Over the next half century, the true size of the federal government expanded in almost every department and agency as it came to depend on 7-9 million federal, contract, and grant employees to faithfully execute the laws. In *The Government-Industrial Complex*, public management expert Paul Light not only traces the expansion of the federal government's workforce over the past few decades, but also explains why it has taken the shape that it has. In marked contrast to governments in other wealthy countries, America's relies heavily on contract and grant employees to deliver goods and services even as the number of federal employees has held steady for seventy years. Light traces the rise of this government-industrial complex and asks whether and how the nation can be sure that the right people are in the right jobs to assure maximum performance for the public good. To do this, he offers short histories of the roles of various presidents and the impacts of war and economic crisis on the changing size of government. He also highlights the Trump administration's early strategies on downsizing and deconstructing government. Light emphasizes that achieving the right balance between public and private responsibilities is the key to making government both more efficient and more responsive. Comprehensive and

pointed, this is a landmark account of the true nature and scope of national governance in the United States.

Americans hate bureaucracy—though they love the services it provides—and demand that government run like a business. Hence today's privatization revolution. Jon Michaels shows how the fusion of politics and profits commercializes government and consolidates state power in ways the Constitution's framers endeavored to disaggregate.

Part 2 of 2 Today we are releasing Version 2 of the CFPB Supervision and Examination Manual, the guide our examiners use in overseeing companies that provide consumer financial products and services. Our manual, originally released in October 2011, describes how the CFPB supervises and examines these providers and gives our examiners direction on how to determine if companies are complying with consumer financial protection laws. We updated the supervision manual to reflect the renumbering of the consumer financial protection regulations for which the CFPB is responsible. The numbering conventions in the Code of Federal Regulations (CFR) allow the reader to easily identify which regulations fall under a particular agency's responsibility. The renumbering incorporated throughout the manual reflects the Dodd-Frank Act of 2010 transfer of rulemaking responsibility for many consumer financial protection regulations from other Federal agencies to the CFPB. In December 2011, the CFPB published its renumbered regulations in the Federal Register. The renumbered regulations also included certain technical changes but no substantive changes. The CFPB's renumbering reflects the codification of its regulations in Title 12 (Banks and Banking), Chapter X (Bureau of Consumer Financial Protection) of the CFR. For example, before July 21, 2011, the Federal Reserve had rulemaking authority for the Home Mortgage Disclosure Act, which was codified in Title 12, Chapter II (Federal Reserve System), Part 203. The CFPB's implementing regulation for the Home Mortgage Disclosure Act is now codified in Title 12, Chapter X, Part 1003.

This book was designed with military members in mind--to protect the credit and finances of those who, in turn, so valiantly protect the world from terrorism. This book offers a multitude of letters which will help the military member repair their credit. As well, it provides a centralized resource for credit repair for the military

member.
