

## Second Book Of Sanskrit English

Sanskrit Non-Translatables is a path-breaking and audacious attempt at Sanskritizing the English language and enriching it with powerful Sanskrit words. It continues the original and innovative idea of nontranslatability of Sanskrit, first introduced in the book, Being Different. For English readers, this should be the starting point of the movement to resist the digestion of Sanskrit into English, by introducing loanwords into their English vocabulary without translation. The book presents a thorough mechanism of the process of digestion and examines the loss of adhikara for Sanskrit because of translating its core ideas into English. The movement launched by this book will resist this and stop the programs that seek to turn Sanskrit into a dead language by translating all its treasures to render it redundant. It discusses fifty-four non-translatables across various genres that are being commonly mistranslated. It empowers English speakers with the knowledge and arguments to introduce these Sanskrit words into their daily speech with confidence. Every lover of India's sanskriti will benefit from the book and become a cultural ambassador propagating it through routine communications.

A. C. Bhaktivedanta Swami Prabhupada (1896-1977), founder of the Hare Krishna Movement, traced his lineage to the fifteenth-century Indian saint Sri Chaitanya. He authored more than fifty volumes of English translation and commentaries on Sanskrit and Bengali texts, serving as a medium between these distant authorities and his modern Western readership and using his writings as blueprints for spiritual change and a revolution in consciousness. He had to speak the language of a people vastly disparate from the original recipients of his tradition's scriptures without compromising fidelity to the tradition. Tamal Krishna Goswami claims that the social scientific, philosophical, and 'insider' forms of investigation previously applied have failed to explain the presence of a powerful interpretative device—a mahavakya or 'great utterance'—that governs and pervades Prabhupada's 'living theology' of devotion on bhakti. For Prabhupada, the wide range of 'vedic' subject matter is governed by the axiomatic truth: Krishna is the Supreme Personality of Godhead. Goswami's academic training at the University of Cambridge, his thirty years' experience as a practitioner and teacher, and his extensive interactions with Prabhupada as both personal secretary and managerial representative, afforded him a unique opportunity to understand and illuminate the theological contribution of Prabhupada. In this work, Goswami proves that the voice of the scholar-practitioner can be intimately connected with his tradition while sustaining a mature critical stance relative to his subject. A Living Theology of Krishna Bhakti includes a critical introduction and conclusion by Graham M. Schweig.

Excerpt from First Book of Sanskrit: Being an Elementary Treatise on Grammar, With Exercises Tur. Study of Sanskrit has but recently risen in the estimation of the educated natives of this Presidency and of our Educational authorities. The old Sanskrit College of Poona owed its existence and continuance rather to the spirit of conciliation and toleration in our rulers, than to their conviction of the utility of Sanskrit as a branch of general education. The modern critical and

progressii? Spirit was not brought to bear upon it. The old Ss'istris were allowed to carry all things in their own way. After about thirty years since its establishment, the authorities began to exercise active interference, until at length the College was abolished, and a new system inaugurated, which to be complete and cll'ective, requires, in my humble opinion, a partial restoration of the old institution.
