A sound understanding of public international law is indispensable for any lawyer, whether working in an international or domestic context. It is therefore important that students have a thorough theoretical understanding of international law issues, and are able to apply the relevant international legal rules to a given set of facts, so as to arrive at a legally coherent conclusion. This practical aspect of learning international law is often neglected in favour of more theoretical aspects - which is where this book comes in. The book offers a series of hypothetical practical cases in public international law, including some of its specialised branches, such as international human rights law and international criminal law. It challenges students to practise and familiarise themselves with the methodology and to write solutions to practical international legal questions. The book is in two parts: part one contains practical (exam-like) questions, while part two contains the solutions. The practical questions in part one are organised by subject, such as treaty law or state responsibility. One chapter is dedicated to

more complex 'interconnected' cases, where students are asked to tackle problems which span multiple potential cases and topics.

The Secret Service was established after the Civil War by the Treasury Department, originally to protect American currency against counterfeiters. After the assassination of President William McKinley in 1901, Congress directed the Secret Service to protect the President of the United States. Protection remains the primary mission of the United States Secret Service. It takes a special type of individual to be a U.S. Secret Service agent, one willing to "take a bullet" to preserve the ideals on which the United States was founded. To Be a U.S. Secret Service Agent lifts the curtain for a look inside this secretive law enforcement agency, including the highly selective recruiting, the intense training, and the specialized weapons and equipment used to protect current and past Presidents, Vice Presidents, their families, and visiting heads of state.

Born in the worst suburb in Pittsburgh, Elaine Brogan is bright, beautiful and bold. When her father is falsely arrested for passing counterfeit \$100 bills, Elaine vows to become a Secret Service agent and track down the man responsible. After barely surviving the arduous Secret Service Training Academy in Laurel, Maryland, she is transferred to bleak and blustery Great Falls, Montana. But things

do not go as planned, and Elaine soon finds herself betrayed and thrown into an adventure that takes her halfway around the world, from dark and mysterious Sofia, Bulgaria, to Moscow Russia, and finally, to Milan, Italy. In the end, will Elaine find the love and happiness she truly seeks...or will she turn to a life of obscene wealth, power and corruption? Fans of Sidney Sheldon and Janet Ivanovich will enjoy this book.
