Given the prevalence of student diversity, schools are struggling to find ways to help with the implementation of CCSS. With the wide range of student learning styles, socioeconomic backgrounds and life experiences, one key to meeting this challenge is the use of Universal Design for Learning (UDL). Originally developed to address the instructional needs of students with disabilities, UDL is now being embraced as an answer to creating learning environments where all students, regardless of their individual differences, can meet the CCSS. Designed for

classroom teachers, this guide provides practical strategies and best practices for utilizing UDL as a means to help students successfully access and achieve the CCSS.

The tri-fold laminated reference guide *Common Core Standards & English Language Arts: Strategies for Student Success (Grades 6-12)* by Toby Karten presents an at-a-glance overview of the CCSS for English Language Arts (ELA) for students in grades 6-12. It is intended to help middle and high school teachers understand the organization and application of the standards for diverse students, including those with special needs. Topics covered in the guide include:

- * Challenges of the cross-disciplinary design of CCSS for ELA at the secondary level
- * College and career readiness (CCR)
- * CCR anchor standards for reading: literature (RL) and informational text (RI)
- * CCR anchor standards for writing (W)
- * CCR anchor standards for speaking and listening (SL)
- * CCR anchor standards for language (L)
- * Differentiating instruction for students at different reading levels
- * Models for measuring and evaluating text complexity
- * Strategies for helping students with disabilities achieve ELA standards

The CCSS for ELA raise the bar to ensure students master the reading, writing, speaking and listening, and language skills they need to be college and career ready in literacy. They will yield effective outcomes for all students—including those with disabilities—if

educators creatively and consistently embrace them and connect them to all of their students.

The author provides practical and accessible tools for developing a map and for making the important connections among all unit map components, including differentiated instruction. Also included are: A rationale for each of the ELA common core standards An overview of the key benefits Reproducible templates and examples of unit curriculum maps

This six-page, quick-reference laminated guide is a convenient tool for teachers charged with implementing the Florida State Standards. It explains how and why to use Universal Design for Learning (UDL) to ensure students with diverse backgrounds and learning needs can succeed. The guide provides an overview of Universal Design for Learning (UDL), along with strategies for providing multiple means of representation, multiple means of expression, and and multiple

means of engagement. It also describes specific UDL best practices that enhance implementation of the Language Arts Standards (LAFS) and Mathematics Standards (MAFS). Other features include a UDL lesson planning framework and a review of approaches— such as differentiated instruction, brain-compatible learning, multi-tiered system of supports, cooperative learning and project-based learning— that support UDL in the classroom.

All students, including those with reading, writing, language, speaking, listening, hearing, and communication differences, can achieve high outcomes with the English language arts (ELA) curriculum when appropriate instructional strategies are used and evidence-based inclusion practices, such as multi-tiered systems of support (MTSS), specially designed instruction (SDI), and differentiated instruction (DI) are followed. This reference guide provides recommendations to assist educators as they plan for and deliver instruction on literacy skills within inclusive K-5 classrooms. It provides "Top 10 Recommendations" for reading, writing, speaking and listening, and language, including numerous online resources.

With the ever-increasing use of online learning in K-12 education, it is critically important for teachers to vary instruction to meet the wide range of individual learning styles and student diversity, whether teaching a class remotely or in person. Universal Design for Learning (UDL) makes instruction—whether in-person or virtual—more accessible for all students, and it can help teachers overcome challenges that come with remote teaching and learning. This quick-reference laminated guide provides an overview of UDL and recommends UDL strategies for providing multiple means of representation, multiple means of expression, and multiple means of engagement for students in grades K-12 who are leaning entirely virtually, in a hybrid model, or in-person. It lists best practices for incorporating UDL in English Language Arts and Mathematics, presents a UDL planning framework, and discusses other frameworks that support UDL in the classroom.
