

Strange Mysteries That No One Has Solved Creepy Strange Unexplained Mysteries That No One Has Solved Book 2

Remaining supernatural fiction by writer many consider greatest ghost story writer of all time. Mystery stories are equally memorable.

Josh Anvil has powers, though how he got them is a mystery. He can make living things just by talking about them, and of course they get him into all kinds of trouble.

Schoolmates harass him, the FBI kidnaps him, and else something is out to kill him.

"Missouri is a place of great diversity and amazing beauty, stretching from the Mississippi River to the forests and rolling hills of the Ozarks, with caves, rivers, and rugged woodland in between. Out of this land comes scores of ghostly tales, from documented haunting to folk stories that have been passed along from one generation to the next."--Page 4 of cover.

THE BORDERLINE by Walter S. Masterman is a classic impossible mystery, sixth in the Dancing Tuatara Press series of obscure and hard-to-find titles. An introduction by John Pelan provides a solid background of the mysterious author and his books.

I AM BECOME DEATH, THE DESTROYER OF WORLDS ALLY WESTER struggles with her newfound powers in the white magic. But her power has drawn notice, and dark creatures desire to claim her for their own. ARRAN BELPHON has vowed to protect Ally Wester. And it will take everything he has to defend her - his strength, his heart, and even his life itself may be the price. MARUGON is the last of the Warlocks, the greatest wielder of black magic ever to walk under the sun. Now, at last, he possesses what he has long sought, and his true work can begin. And the TOWER OF ENDLESS WORLDS shall burn...

Wyllard's Weird begins with the death of a young foreign lady, who falls from a train running over a bridge through the Cornish countryside. Her identity is unknown and it is a mystery whether this is an accident, a suicide, or a murder. Julian Wyllard, a rich landowner, tries to clear matters up by employing a London detective, but he only manages to diagnose a murder and he directs suspicion on Wyllard's wife's favorite cousin, Bothwell Grahame, who will not account for why he was on that train when the young woman was killed. Wyllard's wife, in order to clear her cousin's reputation, asks the village coroner Edward Heathcote to make further investigations into the case and he takes it upon himself to find the truth. Heathcote's inquiries lead him to Paris and the mystery gets a new dimension when clues link the dead woman with a cruel double murder which happened a decade ago.

Challenge and inspire your teenage learners to think beyond language. Think is a fresh, vibrant and upbeat course designed to engage teenage learners and make them think. As well as building students' language skills, it offers a holistic approach to learning: developing their thinking skills, encouraging them to reflect on values and building self-confidence. Topics are chosen to appeal to and challenge teenagers, firing their imagination and ensuring effective learning. This split combo edition includes 4 Students' Book and Workbook units combined plus access to the online learning management platform with extra resources interactive activities. Teachers can use the platform to track students' progress and ensure more effective learning.

Chronicles the world's greatest supernatural mysteries, including crop circles, fairies, and UFOs.

Ever since the caveman gazed longingly at the winged creatures above him, mankind has been enamored with the idea of flight—of just taking off and soaring away. Steven A. Ruffin celebrates that spirit, that sense of wonder, with Aviation's Most Wanted™: The Top 10 Book of Winged Wonders, Lucky Landings, and Other Aerial Oddities. With dozens of top-ten lists focusing on notable flights, memorable planes, famous and infamous aviators, aircraft combat, air travel—even space travel—and so much more, Ruffin provides a treasure trove of fun facts and amazing anecdotes celebrating the world's love affair with flight, plus the hurt that accompanies any deep love. Will Rogers died in a plane crash near Point Barrow, Alaska, with aviation legend Wiley Post at the controls. Rogers was writing an article at the time of the crash; eerily, the last word he typed was "death." Isoroku Yamamoto, who masterminded the surprise attack on Pearl Harbor, met his fate in similarly sneaky fashion. U.S. forces intercepted and decoded information on

Yamamoto's travel plans and "Pearl Harbored" his plane, shooting it down into the island jungle of Bougainville. The safest seat in a crash depends on if you crash on takeoff or on landing—so flip a coin! You'll read about the first and worst of flight, aces and races, and everything from crimes, sex, and controversy to planes so fast they can outrun the sun. With Aviation's Most Wanted™ you'll get the history of flight from the early balloon adventures of the eighteenth century until the present, laid out with trivia and tales to amuse and amaze!

This is another rare fantasy novel of: Origin of the People; the Light; the End of the World; in Space; Adrift in the Solar Regions; Jupiter and the Jovians; Death in Jupiter; Alan the Knight Errant; the Cave of Whispering Madness; the Hall of S.

This carefully crafted ebook: "THE RED THUMB MARK, THE EYE OF OSIRIS & THE MYSTERY OF 31 NEW INN (3 British Mystery Classics in One Volume)" is formatted for your eReader with a functional and detailed table of contents. Dr. John Thorndyke is a fictional detective in a series of novels. He is a medical jurispractitioner - originally a medical doctor, he turned to the bar and became one of the first, in modern parlance, forensic scientists. His solutions were based on his method of collecting all possible data (including dust and pond weed) and making inferences from them before looking at any of the protagonists and motives in the crimes. It is this method which gave rise to one of Freeman's most ingenious inventions, the inverted detective story, where the criminal act is described first and the interest lies in Thorndyke's subsequent unraveling of it. Richard Austin Freeman (1862-1943) was a British writer of detective stories, mostly featuring the medico-legal forensic investigator Dr. Thorndyke. Freeman used some of his early experiences as a colonial surgeon in his novels. Many of the Dr. Thorndyke stories involve genuine, but often quite arcane, points of scientific knowledge, from areas such as tropical medicine, metallurgy and toxicology. Table of Contents: The Red Thumb Mark The Eye of Osiris (The Vanishing Man) The Mystery of 31 New Inn

UNEXPLAINED MYSTERIES OF THE PAST. (PART TWO.) THIS BOOK IS A CONTINUATION OF THE BOOK "UNEXPLAINED MYSTERIES OF THE PAST." PART ONE."UNEXPLAINED MYSTERIES" CAN BE FASCINATING. THEY MAKE GREAT CONVERSATION TOPIC AND THE DISCUSSION CAN BE ENDLESS. NOT HAVING COMPLETE ANSWERS OFFER "INTRIGUE" AND JOURNEY INTO THE UNKNOWN. WHAT REALLY HAPPENED? NO ONE SEEMS TO KNOW FOR SURE. WHILE SOME MYSTERIES ARE SOLVED OTHERS CAN LINGER ON INDEFINITELY. THIS BOOK EXPLORES SEVERAL " PROMINENT" AND RECENTLY "UNEXPLAINED" MYSTERIES THAT WERE NEVER SOLVED DESPITE EXTENSIVE INVESTIGATIONS AND TIME FRAMES. SOME OF THE SUBJECT MATTERS COVERED ARE, THE MYSTERIOUS DISAPPEARANCE OF KIMT NEWS ANCHOR JODI HUSIENTRUIT. HOW DID SHE JUST VANISH INTO THIN AIR? Four Corners is an integrated four-skills course for adults and young adults who want to use English to communicate effectively in daily life. Easy and enjoyable to teach. It combines proven communicative methodology with a practical outcomes-based approach. Four Corners features a clear presentation of vocabulary, a thorough grammar syllabus, and an everyday functional language lesson in every unit together with systematic practice of all four skills. Four Corners places special emphasis on helping students become confident and competent speakers of English. Speaking activities at the end of every lesson, tied to clearly labeled measurable outcomes, enable students to see the results of their learning and help them see their progress.

Space & Universe have always attracted human race. There have been several mysteries associated with this. Humans have always & will continue to travel to find what exactly is hidden in space out there. I at age of 15 am no different & have plans to solve the mysteries. So come join me in understanding few mysteries.

Returning to Earth in the hopes of settling down to a quiet farmer's life, mystic warrior Curtis Macurdy is dismayed when one of Hitler's psychic recruits discovers the Bavarian Gate and unleashes the militaristic Voitusotar on the Allied forces. Original.

The Book No One Has Ever Read

Midwestern Strange chronicles B.J. Hollars's exploration of the mythic, lesser-known oddities of flyover country. The mysteries, ranging from bipedal wolf sightings to run-ins with pancake-flipping space aliens to a lumberjack-inspired "Hodag hoax," make this book a little bit X-Files, a little bit Ghostbusters, and a whole lot of Sherlock Holmes. Hollars's quest is not to confirm or debunk these mysteries but rather to seek out these unexplained phenomena to understand how they complicate our worldview and to discover what truths might be gleaned by reexamining the facts in our "post-truth" era. Part memoir and part journalism, Midwestern Strange offers a fascinating, funny, and quirky account of flyover folklore that also contends with the ways such oddities retain cultural footholds. Hollars shows how grappling with such subjects might fortify us against the glut of misinformation now inundating our lives. By confronting monsters, Martians, and a cabinet of curiosities, we challenge ourselves to look beyond our presumptions and acknowledge that just because something is weird, doesn't mean it is wrong.

Who would think that Australia would ever face the assassination of its prime minister? However, times have changed and the world is on a seemingly unstoppable path to a climatic apocalypse. Fed up with a long line of dysfunctional governments and a string of catastrophic climatic events, the country's citizens want action . However, the new PM McCarthy faces stiff opposition from desperate individuals who will

stop at nothing to maintain the status-quo. He finds himself dealing with assassination attempts, nuclear war, terrorist attacks and treachery from within his own ranks. Unable to trust the head of the Australian Security Intelligence Agency (ASIO) unions or Big Business McCarthy has his work cut out and must convince other nations to follow Australia's lead. The characters come to life in this well-researched, modern and extremely topical, real-life drama rich in political intrigue, historical events, mystery and romance.

Accompany the Fanthorpes on their intriguing investigations in Canada and worldwide, through years of research into the unexplained.

Imagine the following scene: Eric Schliemann having to get the permission of scientists, telling them that, based on Homer's descriptions, he believes he can discover the mythical Troy. Besides laughing their hearts out, do you believe there would even be the slightest chance for Schliemann to have gotten their permission? And it is not just Troy nor just Knossos nor just the Mycenae, most major archaeological findings in the entire world, despite the references in the ancient texts, were a complete surprise for the scientific establishment. If that establishment had full control, all those discoveries would simply never have happened. The main purpose of this book is to present evidence supporting the theory of a relatively advanced civilization during prehistory, which was however lost due to some natural catastrophe. This is mainly attempted by presenting knowledge of the ancient people which they are not justified to have had and similarities between very distant cultures which should not have existed. How advanced was that civilization? I would say somewhat more advanced than that of Europe during the 18th century AC. Secondarily, but no less important, there are the following goals: *To reveal the huge danger our civilization faces from cosmic impacts and help realize how much more frequent natural catastrophes are than we think. *To shoot down the theories regarding Indo-Europeans & foreign invaders in the area of Greece, proving that the Greeks have preserved knowledge from events that happened in this area many thousand years before their time. *To show that mythology hides within itself big doses of historical truth as it describes real events, although often distorted by the human imagination. And this truth may be of great help to the work of science in the investigation of the unknown aspects of our past. *To trouble the reader on how much we really differ from men of past eras, even from other human species, contrary to the common belief that we are vastly "superior". *To arouse the reader's interest in the ancient mysteries which spread like a fog over the history of the human civilization. Science after all accepts that large-scale catastrophes often occur while man walked the earth, so is it really unlikely for the human civilization to have had a set-back at least once in the past? On the contrary I would say, it is probably the normal thing. In a smaller scale than the one proposed here, there have been many set-backs in the human civilization, like the domination of the Romans (when the Hellenistic Age collapsed), the collapse of the Romans themselves later on, the rise of Islam, and more. The funny part is that science accepts the Indo-European theory, meaning that there was an Indo-European / Arian race which started travelling around the world during prehistoric times spreading civilization, but left no single trace behind before mysteriously disappearing. But how far is the Indo-European theory from that of a lost civilization? Not much, as one difference is the time period and the other one is the geographical area (the present theory presupposes the crossing of the ocean). So how reasonable is it for one theory to be officially adopted by science and the other to be out of the question? We are used to rejecting anything opposed to the established views, but during the course of human history all the great pioneers did exactly that: challenged the status quo.

Explore Some Of The Most Fascinating Mysteries Of All Time Book 1: Unexplained Mysteries Of The World Humanity has come so far and explored so much. As a species, we have more or less conquered the entire Earth and all of its resources. We have built towering structures, intricate systems and settled everywhere -- from the tallest peaks to the deepest valleys. We have now entered what many like to think of as the enlightened, scientific era -- where old superstitions and fears have been abolished, and the mysteries of the past have been solved. Basically, many of us like to think we have figured it all out. However, whether we want to admit it or not, we are still surrounded by plenty of enigmas. Unexplained phenomena, such as confirmed instances of remote viewing or sightings of strange beings like Bigfoot, may sow a seed of doubt in even the surest of individuals. While some sneer at, or shy away from, the thought of investigating the mysterious, there are also those who feel curious, maybe even energized, at the thought of exploring something completely new. As Neil Armstrong once said: "Mystery creates wonder, and wonder is the basis for man's desire to understand". If you are one of those who seek to feel wonder, this book is for you. Herein you will find a varied collection of some of the most intriguing unexplained mysteries of our time. From the puzzling artifacts of a lost civilization, to psychic visions and shocking UFO landings -- by the end of this book, you will have plenty of captivating questions to ponder and investigate further. Book 2: Bigfoot & The Other Ones Bigfoot, also called Sasquatch, is thought to be a large, hairy, ape-like being that inhabits some of the dense forests and remote mountain ranges of North America. Although solid, scientific evidence of the creature is lacking, stories of sightings and encounters have been steadily accumulating throughout the years. As a result, Bigfoot has been placed in the category of so-called "cryptids" -- creatures that are thought by some to exist on Earth, but have yet to be properly documented by modern science. Others in this category include the mysterious, waterborne, dinosaur-like being popularly-known as "the Loch Ness monster", as well as the goat-eating Chupacabra of South America. Due to the sheer volume of eyewitness accounts involving Bigfoot, most people in the Western hemisphere recognize the general description of this creature. What few may realize, however, is that the Sasquatch is not unique to North America. Or, at least, stories of mysterious, bipedal hominids are not. From the mountainous regions of Nepal to the wild outback of Australia, tales of such beings have existed throughout history. In many cases, the descriptions of these creatures seem to match Bigfoot. So, then, a few questions naturally arise: Are these all part of a singular, long-lost species of great ape, or are they separate beings with different genetic lineages? How similar are they to each other, where do they live, and is there any evidence of their existence? We will explore the answers to these questions, and many more, in this book.

"In the early 1900s, a very rare book was found. It was written in a secret alphabet and filled with strange drawings. If only someone could read it! What messages might be hidden in its mysterious pages?"--page 4 of cover.

Have you ever looked up at the stars at night and wondered just what's out there, far beyond space?... Or perhaps wondered what waits for you beyond this life?... Have you ever had a glimpse or just a hint in a moment when you daydream of what heaven might be like?... Or wondered exactly who is responsible for creating this shambles of a world? No?... Well, neither had Monty. But when he receives a surprise Christmas present, he doesn't realise that it's going to be the start of the most unusual adventure. And the places he goes and the people he meets are not at all what he expected. Welcome to the world of the man upstairs. This is a book for older children and young people... but could be read by anyone!
