Each contributor tackles a specific theoretical or practical issue in essays that cover feminist practice, editorial procedure, political ideology, practical dramaturgy, and sixteenth- and twentieth-century history. The result is a volume at once wide-ranging and detailed, of interest and value to cultural historians as well as to textual scholars.

This text focuses on the reciprocal relationship between past and present, the way Shakespeare talks to us, the ways in which we talk about Shakespeare, and the way in which Shakespeare, ultimately, is "all talk". Through a variety of approaches to Shakespeare (including Shakespeare in his time, Shakespeare in our time, film, race, history and the future) the book looks at how Shakespeare is "talked about" in the fields of English studies, performance studies and cultural studies.

Seminar paper from the year 2001 in the subject English Language and Literature Studies - Literature, grade: 1,3 (A), Free University of Berlin (Institute for English Philology), course: HS Dialogue and Drama im WiSe00/01, 27 entries in the bibliography, language: English, abstract: In the following I am going to approach Shakespeare's „The Taming of the Shrew,“ by analyzing selected dialogues according to their communication patterns. Main focus here is it to look at relationship and gender structures and their manifestations. The question raised is whether language is specifically used to affirm polarities, or even if these polarities are only a result of defining language. To what extent is reality constructed through this language and for what reason? What positions do non-verbal communication signs, such as clothes and body-language have, and do they influence the interaction as well? Working with a text always brings up questions and conclusions that may be subjective and just one possible interpretation. I have tried to show different approaches and have backed up my analysis with studies in communication sciences such as works by Watzlawick and Schultz von Thun. The main axiom on which I base this paper on is: “All behaviour is communication.” I am going to present different aspects of language to picture communication as a whole, as a system with various elements, supporting each other. The theoretical ferment which has affected literary studies over the last decade has called into question traditional ways of thinking about, classifying and interpreting texts. Shakespeare has been not just the focus of a variety of divergent critical movements within recent years, but also increasingly the locus of emerging debates within, and with, theory itself. This collection of essays, written by distinguished and powerful critics in the fields of literary theory and Shakespeare studies, is

« Television Shakespeare » : l'expression a-t-elle encore un sens à une époque où Shakespeare à la télévision ne se réduit plus à la série BBC mais est devenu, notamment au fil des innovations technologiques, un concept de plus en plus hybride, porteur d'une infinie variété ? Ce volume offre au lecteur un examen précis d'adaptations télévisuelles des pièces shakespeariennes tout en questionnant les limites poreuses que le 21<sup>e</sup> siècle fait apparaître entre la télévision et les autres médias, Shakespeare semblant pouvoir ou devoir se prêter à toutes les métamorphoses. All students can learn about William Shakespeare using passages written at four reading levels. Symbols on the pages represent reading-level ranges to help differentiate instruction.
