This book is open access under a CC BY 4.0 license. This volume presents an Empirical Model of Global Climate developed by the authors and uses that model to show that global warming will likely remain below 2oC, relative to preindustrial, throughout this century provided: a) both the unconditional and conditional Paris INDC commitments are followed; b) the emission reductions needed to achieve the Paris INDCs are carried forward to 2060 and beyond. The first section of the book provides a short overview of Earth's climate system, describing and contrasting climatic changes throughout the planet's history and anthropogenic changes post-Industrial Revolution. The second section describes the climate model developed by the authors (Canty et al., Atmospheric Chemistry and Physics, 2013) and contrasts the model with climate models used in the Intergovernmental Panel on Climate Change (IPCC) 2013 Report. Chapter 3 examines both the unconditional (i.e., firm commitments) and conditional Paris INDCs (commitments contingent on financial flow and/or technology transfer) through the lens of their climate model and concludes that if all of the Paris INDCs are followed, then they are indeed a beacon of hope for Earth's climate. The fourth part of the book offers a perspective of energy needs and subsequent emissions reductions required to meet the Paris temperature goals, illuminating challenges faced both in the developing world and the developed world. Throughout the book, easy-to-understand

charts and graphics illustrate concepts. The scientific basis of Chapters 2 and 3 was first presented in a keynote session of the 96th Annual Meeting of the American Meteorological Society in January, 2016.

The author has lived in the northeastern Georgia mountains for thirty years. After nine years as a teacher in Florida, he moved to Georgia where he became a school counselor for twenty-five years. On the surface, the sixth world of men is a glorious world. It is a world of great technological advancement. It is a world that has been at peace for a hundred years. While the world known as Kosundo by its inhabitants goes about its usual business, an ancient prophesy ominously predicts that the time of the soulless has come. Then, a mysterious man lurks about a secret city. A forgotten miscreation is plotting revenge. An emperor is going mad. A terrible weapon threatens to wreak destruction. And finally, a being of absolute evil is planning to make the world his own. But a prophet reveals a beacon of hope and tells of choices that need to be made. Each choice will determine whether another beacon of hope shines forth or if the darkness of evil prevails. A Beacon of Hope is the first book in The Sixth World of Men series.

The book gives more comprehensive description of the human male and female generative organs along with the problems that afflict them to cause impotence and

It throws light on the various modern techniques to cure impotence and infertility so that the couples can hope for the best in the near future. The basic theme of this book is to help the childless couples solve their psychological, physical and medical problems and to keep them away from falling into the grip of the unscrupulous quacks, 'Babajis' and the self-proclaimed sexologists.

His people and has given them hope. That hope today, my friends, is us!" (Riley Cooper). In these trying times that we live in, there seems to be a sense of misdirection. It will show you that someone does care about where you are and where you're going. You are not alone my friend, God is there for you. The following poems are about Gods love for us, His direction that He has for our life, and how we should treat one another to be true beacons of His light and words. This book, "Beacon of Hope" is compiled of inspirational poetry and other works. Its contents have transpired over a period of years. At different intervals in life, a poem would be birthed as inspiration brought it forth. The purpose of this book is to fulfill a longtime dream of the author, Jan Wheeler, who at an early age, recognized that God had blessed her with talent. This talent was in the writing down of her thoughts...creating poetry. She believes that by divine instruction from God, the publication and circulation of this material, through it's simplicity, will minister to others, as well as give a greater understanding of God and His purpose for all human kind. Although small in content, there's a treasure trough of truths wrapped in this small package.

Yeargins inspiring poetry, God has spoken with His Spirit so that everyone can read, study, and apply the wisdom from them to their everyday life. These letters have been written to clarify our views because all of us are searching for answers to many of lifes challenging questions without knowing where to search to find the answers. A Beacon of Hope is vessel for gaining peace of mind for those things that we dont understand, thus allowing us to understand and embrace the paths that have been set before us in love. My prayer is that you receive this with an open heart and after you get it continue to trust in God God can if you trust Him and He will if you continue to place your hope in Him Every tiny tree hopes to become full grown and you should have the desire to please your God I see you as a complete success because you fixed your heart on climbing the highest mountain There is no greater place in heaven or on this earth to put your hope than to hope in God from A Beacon of Hope
