Fascism vs. Capitalism: The Central Ideological Conflict of Our Times

“Fascism” has become a term of general derision and rebuke. It is tossed casually in the direction of anything a critic happens to dislike.

But fascism is a real political and economic concept, not a stick with which to beat opponents arbitrarily. The abuse of this important word undermines its true value as a term referring to a very real phenomenon, and one whose spirit lives on even now.

Fascism is a specific ideology based on the idea that the state is the ideal organization for realizing a society’s and an individual’s potential economically, socially, and even spiritually.

The state, for the fascist, is the instrument by which the people’s common destiny is realized, and in which the potential for greatness is to be found. Individual rights, and the individual himself, are strictly subordinate to the state’s great and glorious goals for the nation. In foreign affairs, the fascist attitude is reflected in a belligerent chauvinism, a contempt for other peoples, and a society-wide reverence for soldiers and the martial virtues.

Lew Rockwell, in this new volume, examines the starkly contrasting systems of capitalism and fascism, noting pro-fascist trends in recent decades as well as the larger historical trends in the United States and internationally.

In Section One, Rockwell focuses on the nature of fascism and its influence in Western society, with a focus on American political and economic institutions.

In Section Two, Rockwell examines capitalism as the enemy of, and antidote to fascism.

Combining economics, history, and political philosophy, this book doesn’t just provide a diagnosis of what ails American and Western society, but also sheds light on how we might repair the damage that has been done, and with the help of the intellectual work of great minds like Murray Rothbard and Ron Paul, we might as a society shed the fascism of our times and look to freedom instead.

This selection from the first ten years of the Evergreen Review gives the full flavor of the energy, savvy, excitement, and gall that characterized the magazine during the days of its publication. It also happens to bring together some of the world’s best writers in one volume, in the company of their peers. Evergreen was more than another literary magazine. Founded by Barney Rossett of Grove Press and publishing from 1957 through 1973 (it now exists as an online only magazine), it was the voice of a movement that helped to change the attitudes and prejudices of the culture at large through the language of art—and succeeded. It was always

damn the torpedoes and full speed ahead. Here are original short stories by Samuel Beckett and Jack Kerouac (with his "October in the Railroad Earth" predating the publication of *On the Road*); Allen Ginsberg's "Howl" (previously published only as a pamphlet); a selection from Lawrence Ferlinghetti's *A Coney Island of the Mind*; and a passage from Alexander Trocchi's *Cain's Book*. Also included are a fantastic sample of the original and iconic magazine covers which were works of art themselves—a heavily bearded Ginsberg cavorting in a sport coat and Uncle Sam top hat in 1966—and several reprinted comic strips; notably, Michael O'Donoghue's "The Adventure of Phoebe Zeit-geist."

The Fall of a Great American City is the story of what is happening today in New York City and in many other cities across America. It is about how the crisis of affluence is now driving out everything we love most about cities: small shops, decent restaurants, public space, street life, affordable apartments, responsive government, beauty, idiosyncrasy, each other. This is the story of how we came to lose so much—how the places we love most were turned over to land bankers, billionaires, the worst people in the world, and criminal landlords—and how we can - and must - begin to take them back. Co-published with *Harper's Magazine*, where an earlier version of this essay was originally published in 2018. The landlords are killing the town. As New York City approaches the third decade of the twenty-first century, it is in imminent danger of becoming something it has never been before: unremarkable. By unremarkable I don't just mean periodic, slump-in-the-art-world, all-the-bands-suck, cinema-is-dead boring. I mean flatlining. No longer a significant cultural entity but a blank white screen of mere existence. I mean *The-World's-Largest-Gated-Community-with-a-few-cupcake-shops*. For the first-time in our history, *creative-young-people-will-no-longer-want-to-come-here* boring. Even, *New-York-is-over* boring. Or worse, New York is like everywhere else. Unremarkable. This is not some new phenomenon, but a cancer that's been metastasizing on the city for decades now. Even worse, it's not something that anyone wants, except the landlords, and not even all of them. What's happening to New York now—what's already happened to most of Manhattan, its core, and what is happening in every American city of means, Boston, Washington, San Francisco, Seattle, you name it—is something that almost nobody wants, but everybody gets. As such, the current urban crisis exemplifies our wider crisis: an America where we believe that we no longer have any ability to control the systems we live under.

This book explores in depth the origins, development, and prospects of outlawry and of the relationship of outlaws to the social conditions of changing times. Throughout American history you will find larger-than-life brigands in every period and every region. Often, because we hunger for simple justice, we romanticize them to the point of being unable to separate fact from fiction. Frank Richard Prassel brings this home in a thorough and fascinating examination of the concept of outlawry from Robin Hood, Dick Turpin, and Blackbeard through Jean Lafitte, Pancho Villa, and Billy the Kid to more modern personalities such as John Dillinger, Claude Dallas, and D. B. Cooper. A separate chapter on molls, plus equal treatment in the histories of gangs, traces women's involvement in outlaw activities. Prassel covers the folklore as well as the facts, even including an appendix of ballads by and about outlaws. He makes clear how this motley group of bandits, pirates, highwaymen, desperadoes, rebels, hoodlums, renegades, gangsters, and fugitives—who stand tall in myth—wither in the light of truth, but flourish in the movies. As he tells the stories, there is little to confirm that Jesse and Frank James, Butch Cassidy and the Sundance Kid, the Daltons, Pretty Boy Floyd, Ma Barker, Clyde Barrow and Bonnie Parker, Belle Starr, the Apache Kid, or any of the so-called good badmen, did anything that did not enrich or otherwise benefit themselves. But there is plenty of evidence, in the form of slain victims and ruined lives, to show how many ways they caused harm. The Great American Outlaw is as much an excellent survey on the phenomenon as it is a brilliant exposition of the larger than-life figures who created it. Above all, it is a tribute to that aspect of humanity that Americans admire most and that Prassel describes as a willingness "to fight, however hopelessly, against exhibitions of privilege."

Renowned chef Jonathan Waxman knows that becoming a great American cook starts at home—here he shares methods for recipes you can pull together with just a few ingredients. His vision is bold, but strikingly unpretentious: many of the dishes in *A Great American Cook*—like the Shrimp BLT, Crispy Chicken and Goat Cheese Burritos, and Gingerbread with Brandied Plums—are free-spirited plays on classics, and his “less is more” philosophy animates suppers like flash-seared scallops on caramelized onions and chicken cooked under a brick with a sauce of rosé wine, bacon, and peas. From a versatile vegetable dish that goes with nearly every main course to handmade pastas with delicate sauces to a foolproof way to cook salmon, Waxman gives you all the techniques and recipes you need for simple, sophisticated cooking at home.

Kate Miller may be the last great American housewife left in Van Nuys. But as she sails toward forty on a wave of a pretty good (albeit somewhat boring) life with her husband and two kids, the death of her dysfunctional mother sends Kate out on a ledge and straight up a tree.

Surveying her life from atop an endangered tree near the Fashion Square Plaza Mall, Kate learns more than how to fight for a cause. She learns how one frightened woman can actually discover her true self, one branch at a time and right down the street from her own backyard. A crucial commentary on the worst global economic crisis since the Great Depression, this book argues for 'Three Rs' — Regulation, Responsibility and Radicalism — i.e., state regulation of finance, state responsibility towards society, and radical social movements to fight for economic justice. It will interest scholars and researchers in international political economy, politics, international relations, and economics, as also policymakers and the informed general reader.

Explores leadership and civic virtue in American culture.

The renowned artist Ed Ruscha was born in Nebraska, grew up in Oklahoma, and has lived and worked in Southern California since the late 1950s. Beginning in 1956, road trips across the American Southwest furnished a conceptual trove of themes and motifs that he mined throughout his career. The everyday landscapes of the West, especially as experienced from the automobile—gas stations, billboards, building facades, parking lots, and long stretches of roadway—are the primary motifs of his often deadpan and instantly recognizable paintings and works on paper, as well as his influential artist books such as *Twentysix Gasoline Stations* and *All the Buildings on the Sunset Strip*. His iconic word images—declaring *Adios, Rodeo, Wheels over Indian Trails, and Honey . . . I Twisted through More Damn Traffic to Get Here*—further underscore a contemporary Western sensibility. Ruscha's interest in what the real West has become—and Hollywood's version of it—plays out across his oeuvre. The cinematic sources of his subject matter can be seen in his silhouette pictures, which often appear to be grainy stills from old Hollywood movies. They feature images of the contemporary West, such as parking lots and swimming pools, but also of its historical past: covered wagons, buffalo, teepees, and howling coyotes. Featuring essays by Karin Breuer and D.J. Waldie, plus a fascinating interview with the artist conducted by Kerry Brougher, this stunning catalogue, produced in close collaboration with the Ruscha studio, offers the first full exploration of the painter's lifelong fascination with the romantic concept and modern reality of the evolving American West.
