Providing an extensive introduction to cultural studies in general, regardless of chronological or geographic focus, and presenting provocative, essential readings from Latin American writers of the last two centuries, Reframing Latin America brings much-needed accessibility to the concepts of cultural studies and postmodernism. From Saussure to semiotics, the authors begin by demystifying terminology, then guide readers through five identity constructs, including nation, race, and gender. The readings that follow are presented with insightful commentary and encompass such themes as "Civilized Folk Marry the Barbarians" (including José Martí's "Our America") and "Boom Goes the Literature: Magical Realism as the True Latin America?" (featuring Elena Garro's essay "It's the Fault of the Tlaxcaltecas"). Films such as Like Water for Chocolate are discussed in-depth as well. The result is a lively, interdisciplinary guide for theorists and novices alike.

Examines Mexican character and culture, pre-Columbian societies, and relations between Mexico and the United States

The Labyrinth of Love is a love story set amid the social and political upheavals of contemporary Mexico. The legend of the plumed serpent runs through the book, illuminating the theme of love and sacrifice and guiding the protagonist, Thomas Ryan, an aging American photographer, in his quest for love and artistic success. The hero's struggle takes place in the context of his relationship with Maria Lopez, a beautiful young Mexican woman. A central theme of the novel turns on the intrusiveness of the photographer in pursuit of his art. In two critical scenes, Ryan is forced to realize that he has exploited both his Mexican lover and a community of Mayan Indians for the sake of his career in the United States. The choice he ultimately makes transcends his ambition for fame and brings him to a surprisingly altered relationship with Maria.

As well as the nine essays on his country's psyche and history that make up The Labyrinth of Solitude, this highly acclaimed volume also includes The Other Mexico, Paz's heartfelt response to the government massacre of over three hundred students in Mexico City in 1968, and Return to the Labyrinth of Solitude,

One of the great mind of the 20th century explores the duality of human nature in all its variations in cultures around the world.

Postcolonial theory has enjoyed wide influence in the humanities but for social science, and in particular sociology, its implications remain elusive. This special volume brings together leading sociologists to explore the concept of "postcolonial sociology," with brand new postcolonial readings of canonical thinkers like Karl Marx, Max Weber, Emile Durkheim and Robert Park. Chapters consider whether or not postcolonial theory is compatible with sociology; explore the relationship between knowledge and colonial power; and offer critical perspectives on the sociology of race and the implications of

postcolonial theory for global sociology. They also unravel the complex entanglements of sociology, area studies, and postcolonial studies; give creative deployments of postcolonial concepts such as hybridity; and critical excavations of sociological thought in India and Mexico. In so doing this volume is among the first to craft newsociologies informed by postcolonial criticism.
