This book is firstly a testament to those of many nationalities who found themselves imprisoned at Stalag Luft VII, Bankau (Luft 7 for short) in Upper Silesia, the Luftwaffe's last prisoner of war camp. Having survived the trauma of action against, and capture by, the enemy, some as far back as 1940, they came from France, the Low Countries, Germany, Norway, Denmark, Poland, the Balkans, Italy, Hungary, the Mediterranean and other seas, and from North Africa. Many of their experiences and adventures have never been documented before. It is also the complete history of their prisoner of war (POW) camp, Luft 7, told in full detail for the first time, a camp that existed for barely thirty-two weeks from its opening in early June 1944 to its closure in mid January 1945.

Nanette Mary is the wife of Count Geoffrey Francois Brousse de Gersigny. For most of her life, she lived in South Africa, but in 1986, they decided to move to Ireland which, for both of them, was like coming home. Although on his father's side, her husband is from a titled and aristocratic French family, his mother's family was from Glendalough in Co. Wicklow—known as the Garden of Ireland. Nanette is the daughter of Richard and Kathleen McNally. She has one sister, Loraine, and two brothers, Terence and Richard. Of her six sons—Michael, Francis, Richard John, Stephen, Philip, and Anthony, the eldest died in 1993 as the ultimate result of an accident on his nineteenth birthday when he was in the Navy. Nanette now has twenty-six grandchildren and nine great-grandchildren. Although already well into her eighties, she is still writing. Over the years, she has had her work published in magazines and newspapers, and she was also the editor and publisher of three magazines. A few years ago, five books of her poems were published in America as well as a delightful children's story, *Ashby . . . The Happy Little Elephant!* Copies of all these books are now only available from the author at New Argentan, Seaview, Murrintown, Co. Wexford, Ireland, as the publisher has gone out of business. Her writing has, in fact, been read in all the English-speaking countries of the world, and for several years, it has been posted on the Internet through the FanStory website. As Nanette Mary always says, she does not write for everyone but just for you—the reader. If you enjoy this book, she would really like to hear from you. This author acknowledges always and only that her ability to write as she does is purely a gift from God, for whose honour and glory she writes. In launching this publication, it is with the hope that, as you share her thoughts through her writing, you will find enjoyment and inspiration. Remember—what she has written is just for you!

Southeast Asia is going through tremendous changes. The market-oriented economies of Brunei, Indonesia, Malaysia, the Philippines, Singapore and Thailand have been showing robust growth, particularly before the Asian financial crisis of 1997/98. The transitional economies of Cambodia, Laos, Myanmar and Vietnam are also exhibiting signs of economic awakening and revival after years of internal political and social turmoil. Despite these encouraging signs, the region still has a long road ahead to achieve developed nation status. Southeast Asia: The Long Road Ahead is a serious and concise study on various important economic aspects of Southeast Asia. Existing economic studies on the region are mainly topical in nature. Most of the publications only attempt to offer a partial treatment of the issues and fail to examine these issues in a holistic manner. The objective of this book is to provide a more complete cross-country discussion on the economic issues and problems facing Southeast Asia. Besides critically examining the multiple facets of changes and problems that have been and will be encountered by Southeast Asia, the book also presents a lucid exposition on the prospects of the region. However, it does not stop there. It moves on to provide pointers and suggestions on how Southeast Asian countries should proceed with their development options and processes. The book should be of interest to economists, graduate students on Southeast Asia and all those who want to have a better knowledge and understanding of the important Southeast Asian region. In this latest edition, data were updated and new emerging trends explored. A significant portion of the text was redrafted so as to make this edition more compact and concise than the earlier ones. New "Suggested Discussion Topics" are added, and contemporary issues such as the Global Financial Tsunami, Asian economic integration and Michael Spence's World Bank Report are also dealt with. Although it has often been assumed that the Quiet Revolution represented the triumph of secularism over religion in Quebec, important vestiges of ecclesiastical influence have remained; among those which have proved to be particularly well entrenched are the structural foundations of the school system.

The diplomatic historian examines the ideas, policies and actions that led from Vietnam to the Iraq War and America's disastrous role in the Middle East. "What will stand out one day is not George W. Bush's uniqueness but the continuum from the Carter doctrine to 'shock and awe' in 2003." —from *The Long Road to Baghdad* In this revealing narrative of America's path to its "new longest war," one of the nation's premier diplomatic historians excavates the deep historical roots of the US misadventure in Iraq. Lloyd Gardner's sweeping and authoritative narrative places the Iraq War in the context of US foreign policy since Vietnam, casting the conflict as a chapter in a much broader story—in sharp contrast to the dominant narrative, which focus almost exclusively on the actions of the Bush Administration in the months leading up to the invasion. Gardner illuminates a vital historical thread connecting Walt Whitman Rostow's defense of US intervention in Southeast Asia, Zbigniew Brzezinski's attempts to project American power into the "arc of crisis" (with Iran at its center), and the efforts of two Bush administrations, in separate Iraq wars, to establish a "landing zone" in that critically important region. Far more disturbing than a simple conspiracy to secure oil, Gardner's account explains the Iraq War as the necessary outcome of a half-century of doomed US policies. "A vital primer to the slow-motion conflagration of American foreign policy." —Kirkus Reviews

The Long Road for Home is primarily based on a collection of over fifty letters written by the editor's great uncle, William W. Lind, while he served as a private in the Twenty-seventh Massachusetts Regiment of Volunteer Infantry during the Civil War. It is also based on a somewhat smaller collection of letters written by three other enlisted men of the same regiment, including two brothers and a friend of William's, and by various friends and relatives of the soldiers. The four soldiers were all young farmboys, and William and his friend were Scottish immigrants. In early 1862, the Twenty-seventh Regiment was involved in the Burnside Expedition, which resulted in the capture of Roanoke Island and New Berne, North Carolina. Between late 1862 and 1864, the regiment took part in picket duty and various skirmishes, expeditions, scouting missions, battles at Drewry's Bluff and Cold Harbor, and the Siege of Petersburg. William and one of the brother soldiers were wounded, the other brother was mortally wounded and died as a prisoner of war, and William's friend deserted. The Twenty-seventh Regiment lost, in total during service, 12 officers and 389 enlisted men to injury and disease. The main focus of this book is to give some insight into the personal thoughts, worries, moods, sufferings, and problems of common soldiers of limited education, who at a young age volunteered to serve their country in order to put the letters in proper perspective, the soldiers' correspondence is interspersed

with some of the Twenty-seventh Regiment's history and chronology, as well as with some of the war's general history. Comments have also been added at the end of a number of letters to explain more fully, clarify, or in some cases correct, references made by the soldiers. But the letters are generally left to speak for themselves. Some of them describe the horrors of battle, many contain the usual gripes about army life, others relate unsavory incidents not found in the official reports, and a couple tell of how rival pickets called an informal truce and fraternized. Generally speaking, however, the letters to some extent reflect a kind of honest patriotism and loyalty. The Long Road for Home contains maps of the battlefields involved, a few illustrations - including a photograph of Private Lind in uniform - and a glossary of phonetic spelling compiled from the letters.

Sketching the socially marginal, ingenuous, traveling characters common to both old and new versions, Sherrill shows how the "new American picaresque" transforms the satirical aims of the original into an effort to map and catalog the immensity and variety of America."--BOOK JACKET.
