eldest daughter of the Mahkah coven, it's Nimue Mahkah's responsibility to protect and provide for her family. When her family's crops start to wither and die she knows she has to save them at any cost. Losing the crops will mean losing not only her family's livelihood, but also the cauldron of magic she's amassed deep in the earth. The magic she needs to break the curse. Desperate times call for desperate measures... Unable to stop the blight with her own earth-based magic, Nimue sets out on a bold plan – she is going to kidnap Harris Barclay. Knowing his ability to speak with and cure living things, he may be her only hope. The kidnapping goes off as planned, but Harris is ridiculously handsome and more magically powerful than rumored, neither of which she counted on, especially since she can't use her own magic around him without risking a disaster worse than the blight. Left with only her powers of persuasion, and a few threats, she finally convinces Harris to help her plants. And then the muscle, shows up... Hired by the baron of Harris' coven to find him, Trajan Dixon, an air mage and trained security operative, locates Harris and Nimue and arrives on the scene at the exact wrong moment. In the fight that ensues all three use their magic at once, something that is strictly forbidden by all the cabals. And now they know why! One magical cave, a giant talking owl, and a wayward love spell later, the three find themselves on the run together, trying to figure out what happened, and fighting a forbidden attraction for one another. Jayne and friends are fighting their biggest battle ever. Darkness and Light are once again pitted against one another, and only one can emerge the victor. Fae the world over are called into service, and the lives of millions are at stake. Friendships will be tested, hearts will be broken, and when the dust finally settles, the world that emerges will be forever changed.

Between 1450 and 1750 thousands of people – most of them women – were accused, prosecuted and executed for the crime of witchcraft. The witch-hunt was not a single event; it comprised thousands of individual prosecutions, each shaped by the religious and social dimensions of the particular area as well as political and legal factors. Brian Levack sorts through the proliferation of theories to provide a coherent introduction to the subject, as well as contributing to the scholarly debate. The book: Examines why witchcraft prosecutions took place, how many trials and victims there were, and why witch-hunting eventually came to an end. Explores the beliefs of both educated and illiterate people regarding witchcraft. Uses regional and local studies to give a more detailed analysis of the chronological and geographical distribution of witch-trials. Emphasises the legal context of witchcraft prosecutions. Illuminates the social, economic and political history of early modern Europe, and in particular the position of women within it. In this fully updated third edition of his exceptional study, Levack incorporates the vast amount of literature that has emerged since the last edition. He substantially extends his consideration of the decline of the witch-hunt and goes further in his exploration of witch-hunting after the trials, especially in contemporary Africa. New illustrations vividly depict beliefs about witchcraft in early modern Europe.

has been largely avoided, misrepresented, or glossed over with various books geared gingerly towards 'protection magic'. These books, though informative and well written as they may be, have totally missed the spirit of the gray witch – who she really is, how she relates to the world of shadow and light, and exactly what she's willing to do to stand her ground. In our society 'dark' is automatically viewed as 'evil'; and 'light' is automatically viewed as 'good'. We're expected to live completely within one realm and to totally avoid the other. This creates imbalance and is a great injustice to the true spirit of the ancient wise woman. This book puts matters to right and gives the public a view of just what the gray witch is – and what she isn't. The gray witch does not live in a world of chaos or unbridled black magic. She has a code of honor, a sense of propriety, and a relevance in today's society.

Mischievous, beguiling, seductive, lascivious, unruly, carping, vengeful and manipulative – from the Disney princess to the murderous Medea, the articles in Re-visiting Female Evil grapple with our understanding of what it is to be and do evil femininities.

Bad at magic. Ostracized by my coven. Stalked by darkness. It doesn't take much to be a white witch. Harm none. Nurture the earth. Be mindful in all magic. But what happens when the magic doesn't mind the witch? What if bad things keep happening, and the only link is me? When my coven turns against me, naturally I rebel. But I never wanted to hurt my coven, my family. I just wanted to be normal for once, but normal is something I will never have. Darkness exists, and for whatever reason, it's followed me home, and nothing will ever be the same.

ago and created safe havens and mankind. It presents a different story of creation, with an imaginative account of how the solar system came to be. As astronauts on a mission, God, Satan and the angels come alive in this revealing adaptation of the banned story of Adam and Eve, where lords and ladies require mono-atomic gold powder for everlasting life. A foreign legion of dragon-dog angels from the Planet of Fates, farming in the Garden of Eden and mining nearby, strike against God, who replaces them with hew-brutes and a hew-man called Adam. But Adam and his helper, Eve, mate against God's law and are expelled into the wilderness. Is this part of God's plan to lead his mission in a new direction? What are the Ancient Mysteries all about? Some may label this book as heresy, even blasphemy, but others who reason will smile at the cleverly suggested origins of names, stories, objects and customs from around the world. While in eighth grade at Catholic school, James Hansen questioned supernaturalism, especially miracles in The Holy Bible. He asked his teacher, "How come the miracles that happened thousands of years ago do not happen today?" Her answer - "It is a mystery." - has been stuck in his mind ever since. James has researched mythology, religion, science and ancient astronauts for more than 40 years. He graduated from Oregon State University and attended graduate school at Harvard. Hansen lived in England for 10 years and has visited 22 countries, working for 24 years as a civil engineering assistant in the U.S. Air Force, retiring as a master sergeant. A recent lymphoma survivor, he lives in Oregon with his wife. Alien Covenant: Genesis I is his first book.

A continuation of the story of Bella Brie from the Twilight series by Stephenie Meyer.

Imagine yourself sitting on the cool damp earth, surrounded by deep night sky and fields full of fireflies, anticipating the ritual of initiation that you are about to undergo. Suddenly you hear the sounds of far-off singing and chanting, drums booming, rattles "snaking," voices raised in harmony. The casting of the Circle is complete. You are led to the edge of the Circle, where Death, your challenge, is waiting for you. With the passwords of "perfect love" and "perfect trust" you enter Death's realm. The Guardians of the four quarters purify you, and you are finally reborn into the Circle as a newly made Witch. Coming to the Edge of the Circle offers an ethnographic study of the initiation ritual practiced by one coven of Witches located in Ohio. As a High Priestess within the

coven as well as a scholar of religion, Nikki Bado is in a unique position to contribute to our understanding of this ceremony and the tradition to which it belongs. Bado's analysis of this coven's initiation ceremony offers an important challenge to the commonly accepted model of "rites of passage." Rather than a single linear event, initiation is deeply embedded within a total process of becoming a Witch in practice and in community with others. *Coming to the Edge of the Circle* expands our concept of initiation while giving us insight into one coven's practice of Wicca. An important addition to Ritual Studies, it also introduces readers to the contemporary nature religion variously called Wicca, Witchcraft, the Old Religion, or the Craft.

As was the case with many from the region, Chief Gandaa I, the father of S.W.D.K. (Kum) Gandah owed his chiefship to the colonial administration. When the political system changed in the 1950s, the people who had received formal schooling from the colonials were able to profit, and most of the early members of parliament from northern Ghana were the sons of chiefs. Kum Gandah exemplifies this experience. His autobiography, *The Silent Rebel*, provides an insider account of early schools in northern Ghana and the first generation of African professionals, which they produced. It further relates experiences of the first generation of northern politicians, the early elections and the formation of the Northern Peoples' Party. The author's story involves the stories of his contemporaries who included the first minister from the north, the first leader of the opposition (S.D. Dombo) and the first and

only president of northern origins, Hilla Limann. Jack Goody who edited the book provides an introduction. The work contains reproductions of original photographs taken in northern Ghana in the 1950s.
