We're very proud of this book, an all-consuming project that has involved huge input from authors, staff, photographers and experts from around the globe. If, like me, you consider travel to be an important part of your life, then this book will be bad news - it shows us that no matter how far we travel, there's always further to go. At Lonely Planet we believe passionately in the power of independent travel to transform travellers and the communities to which they travel. Bringing respect, sensitivity, curiosity and a generous dose of humour to the travel experience is enormously important, and we hope this book acts not just as a reference tool, but also as a valuable introduction to a better travel experience. Travel is the world's most important business, but it means far more than just money and employment. It is through travel that we go out and meet the world and the world comes to meet us. So open The Travel Book and dive inside - my bet is that soon you'll want to turn the printed experience into a real one.
