This book is designed to familiarise students with leading International Relations (IR) theories and their explanation of political events, phenomena, and processes which cross the territorial boundaries of the state. Thus, students will be exposed to the interplay between power, interest, ideas, identity, and resistance, in explaining continuity and change in international relations. Developed to provide students with the analytical tools and intellectual frameworks needed to understand the behaviour of different international actors in contemporary global affairs. This textbook responds to the challenges of a dynamic job market by assisting students to gain both thorough theoretical knowledge and training them to apply this knowledge to real world problems. In short, this textbook delivers: A comprehensive and interdisciplinary approach to the examination of national, regional and global trends in politics, economics and socio-cultural developments allowing students to understand: ϕ the practice and theory of contemporary international relations ϕ the politics, culture, history, and economies of different regions around the world ϕ the role played by international interactions, culture, and government in local, national, and global settings. Equipping students with the proficiency: ϕ to understand and interpret the dynamics, patterns, and issues of global affairs ϕ to know how to get more information about particular questions ϕ to evaluate that information independently and effectively. To these ends, the textbook provides a number of features that will appeal to students and avoids overwhelming students with chapters on topics which (in practice) are rarely on courses, while nonetheless providing a comprehensive overview of the field. Introduces students to the main debates, topics, and terms in the field and allows them to decide which they would like to focus on in their further studies.

Conspiracy theory's gone wild. This book being full of facts and therefore suggested the reader, read it as fiction. Situations and (or) scenarios are too impossible for some people to believe. Parts of this book may be disturbing to some and the reader is warned to NOT take this too seriously. This may be the scariest Halloween book you have ever read. This is the second edition to the first edition titled: the Corn Cob Pile the New Republican also available at amazon written in 2009. After 11 years of publishers asking for the second edition I released it quickly with a publishers edition / directors cut standing by. Per a publishers request I lower the cost from five dollars to one dollar as a black Friday special. I aim to please.

The authors' unique approach unites historians, social studies teachers, and educational curriculum specialists to offer historically rich, pedagogically innovative, and academically rigorous lessons that help students connect with and deeply understand key events and trends in recent global history. Highlighting the best scholarship for each major continent, the text explores the ways that this scholarship can be adapted by teachers in the classroom in order to engage and inspire students. Key features include: • An overarching narrative that helps readers address historical arguments; • Relevant primary documents or artifacts, plus a discussion of a particular historical method well-suited to teaching about them; • Lesson plans suitable for both middle and secondary level classrooms; • Document-based questions and short bibliographies for further research on the topic. This invaluable book is ideal for any aspiring or current teacher who wants to think critically about how to teach world history and make historical discussions come alive for students.

Sociological Traditions book looks at the sociology of India from two perspectives: first, understanding the cultural traditions of India with special reference to religious and ethical values; and second, exploring the growth of the sociological traditions of India. Divided in two parts, the book goes beyond mere description of the main religious traditions and looks at the ethical values that are embedded in the religio-secular traditions of India. It also projects the sociological traditions of India as a historical process, a process of growth of sociological knowledge. The basic premise of the discussion is not one dominant cultural tradition but the plurality that characterizes the cultural, religious and value traditions of India, and pluralism that characterizes the sociology of India.

One of the inescapable truths that humanity has to grapple with is the reality of death. The manner in which we die, or the cause of our death, may differ, but death remains inevitable. We may be afraid of it or not; we may try to evade it, or not, but death still comes. Although most religions promise the possibility of another life in the hereafter, there is no scientifically verifiable evidence about the reality of that life. Despite that lack of evidence, every culture performs death rituals meticulously to prepare the spirits of its deceased for whatever form of life that may be available. Death Rituals among the Karanga of Zimbabwe: Praxis, Significance, and Changes explores the causes of sickness and death, and the praxis of pre-burial, burial, and post-burial rituals of the Karanga of Zimbabwe in an attempt to unearth their original form and significance, to identify the changes that have taken place. It also provides a brief manual for the performance of some selected Karanga death rituals.

The present volume is the fourth issue of the Yearbook series entitled 'Evolution'. The title of the present volume is 'From Big Bang to Nanorobots'. In this way we demonstrate that all phases of evolution and Big History are covered in the articles of the present Yearbook. Several articles also present the forecasts about future development. The main objective of our Yearbook as well as of the previous issues is the creation of a unified interdisciplinary field of research in which the scientists specializing in different disciplines could work within the framework of unified or similar paradigms, using the common terminology and searching for common rules, tendencies and regularities. At the same time for the formation of such an integrated field one should use all available opportunities: theories, laws and methods. In the present volume, a number of such approaches are used. The volume consists of four sections: Universal Evolutionary Principles; Biosocial Evolution, Ecological Aspects, and Consciousness; Projects for the Future; In Memoriam. This Yearbook will be useful both for those who study interdisciplinary macroproblems and for specialists working in focused directions, as well as for those who are interested in evolutionary issues of Cosmology, Biology, History, Anthropology, Economics and other areas of study. More than that, this edition will challenge and excite your vision of your own life and the new discoveries going on around us!

Presents a new perspective for looking at history from the origins of the universe to present day.

This yearbook is the fourth in the series with the title Globalistics and Globalization Studies. The subtitle of the present volume is Global History & Big History. The point is that today our global world really demands global knowledge. Thus, there are a few actively developing multidisciplinary approaches and integral disciplines among which one can name Global Studies, Global History and Big History. They all provide a connection between the past, present, and future. Big History with its vast and extremely heterogeneous field of research encompasses all the forms of existence and all timescales and brings together constantly updated information from the scientific disciplines and the humanities. Global History is transnational or world history which examines history from a global perspective, making a wide use of comparative history and of the history of multiple cultures and nations. Global Studies express the view of systemic and epistemological unity of global processes. Thus, one may argue that Global Studies and Globalistics can well be combined with Global History and Big History and such a multi-disciplinary approach can open wide horizons for the modern university education as it helps to form a global view of various processes.

Comfort Women and Sex in the Battle Zone is an exhaustive examination of the controversial issue of comfort women, who provided sexual services to Japanese soldiers before and during World War II. This book provides extensive documents and narratives by witnesses to shed light on the reality of these women who worked in the battle zone. In Safari-based Theology Dr. Enos Lwamba has developed an approach to theology and mission based on his proposed safari motif for the development of theology and mission. Based on his Ph.D. dissertation: The Safari Motif in the Development of Theology in Africa, Dr. Lwamba argues that God has used a series of divine redemptive safaris in the Bible to reveal Himself progressively to people. The author develops his proposed motif around a tri-dimensional conception of reality and time and explores a threefold aspect of the safari: mwanzo, sasa, and mwisho, which provide keys to the African mindset. He explores the various meanings and uses of the safari idea from both a biblical and theological perspective. In addition to the literal safaris, "journey" is an analogy of the church and believers are on a divine safari, individually and collectively. The safari model highlights the absolute necessity of the biblical message and the contextual situation to help Christians live effective and fruitful lives in society now and in future. Inspired by both John Mbiti's The African Concept of Time and Paul Hiebert's The Flaw of the Excluded Middle, the author utilizes biblical, theological, historical, and contextual sources to make his point. In the philosophical aspect of the safari, the author develops his notion of an African conception of time modeled on the cultural safari idea which he relates to development of theology and mission. He refutes the western influenced or commercially based notion that "safari" refers to a game hunting or tourist expedition to Africa. Dr. Lwamba promotes the argument that the philosophical framework and methodology drawn from the safari approach provides a more effective way of doing theology and mission in Africa and other contextual situations. He also draws parallels to the safari concept from such sources as Augustine's City of God, John Bunyan's The Pilgrims Progress and others in a refreshing and original style that the reader will find engaging. The motif provides interpretational and practical application tools as it harmonizes the unity of the biblical message. Its practical appeal makes Safari-Based Theology a must read for Christians and others interested in their daily journey of faith. The author contends that just as the idea of logos described the mindset, conception of divine truth, and aspirations of the Greek mind, the concept of safari does the same for the African. This book is highly recommended for pastors, missionaries, and teachers, as well as students of Bible and theology, culture and missions, and other related disciplines.

Kaplan's, 5-Steps, Crash Course and the others are great resources for reviewing at the end, but Tamm's Textbook Tools accompanies students all year long. This AP World History companion is filled with vocab and assignments that follow the Bentley text throughout the year, chapter-by-chapter. It can be used for regular weekly assignments or review. It can be used on short notice if there is a sub, or be done as homework. All you need is the textbook. Teachers can copy at will, or the book can be used as a student consumable. As publishers started putting the majority of their content online, it opened a niche for traditional paper assignments, a void filled by this series. The textbook itself can be written in ink or electrons, but students still need to write and keep notes for themselves, and portfolios still matter. These activities challenge students to apply the concepts and give examples, diagramming each chapter as it comes. Comprising a unique collection of primary sources, this book critically examines several topics relating to ancient Egypt that are of high interest to readers but about which misconceptions abound. • Provides an accurate view of the role of slavery in ancient Egyptian society • Discusses the ancient Egyptian conception of divinity and how it applied to the pharaoh and the use of animals in Egyptian worship and religious iconography • Critically examines the controversial proposition that Jesus never existed but was a myth created from ancient Egyptian stories about Osiris and Horus • Explains the purposes for which the pyramids were built, based on ancient Egyptian texts found within the pyramids themselves • Provides evidence for how misconceptions about ancient Egypt developed and spread, along with support for what we now believe to be the historical truths • Directs users to additional sources of information for further study Traditions & Encounters offers an inclusive vision of the global past—one that is meaningful and appropriate for the interdependent world of contemporary times. Given the diversity of human societies, gathering and organizing the sheer mass of information in a meaningful way is a daunting challenge for any world history survey course. The seven-part chronological organization enables students to understand the development of the world through time, while also exploring broader, big-picture thematic issues in world history. Through new and revised chapter-level and part-level features, the hallmark twin themes of traditions and encounters emerge in greater clarity than ever before in this sixth edition. As a result, students have resources that enable them to move beyond the facts of history and examine the past critically, analyze causes and effects, and recognize similarities and differences across world regions and time periods. By digging deeper into the implications of world history's stories—not just the who, the what, and the where, but also the why and the how—students can make sense of the human past. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.
