This book was written primarily to autonomous Christian churches and those who serve and worship at them. Many areas covered were reflection of the author's views based on his fifteen years of pastoral experience. Major emphasis was placed on church order. The author wants to make the church aware of what should be the process of calling a pastor, instituting a system of discipline, how to institute various types of regulations. Churchology is designed to define church and pastoral prerogatives, pulpit etiquette, and various protocols. Many of the topics are designed to aid the beginning minister. Finally, in the section entitled "Systemic Povertilization," McNeil deals with social issues that all should be aware of and have knowledge about. Jesus dealt with such issues, and so should we. This book has something for everybody. Being a grandmother is one of life's most important roles and many women can feel unprepared to take it on. New Age Nanas presents the rich and diverse views of over 1000 modern Australian grandmothers on what it is like to be a grandmother today, interwoven with expert commentary on how to make the most of this potentially

Identifying and equipping men for the role of church Elder is not an easy task...The role of Elder is perhaps one of the most important roles in the world, since the church is both the body and bride of Jesus. That means church leaders need more than surface opinions about

the men who might possibly fit the role of Elder. They need a way to evaluate and train those candidates. This workbook-style handbook is designed to help church leaders do just that, in a wise, careful, and thoroughly Biblical way. Some contexts where this handbook may be helpful:

- When an existing Elder team needs to bring others onto their team
- When a Pastor needs to establish an Elder team from scratch
- When an Elder team needs a “refresher” about their role, or would like additional training regarding the Biblical mandate for Elders
- As a discipleship curriculum for men, where the role of Elder is held up as a “model” for how they can lead their families with the heart of a shepherd

This handbook is not offered as a magic formula or fool-proof method for finding or equipping men for the role of Elder. No such thing exists. Scripture clearly teaches that men are only appointed to the role of Elder by the determination of the Holy Spirit (Acts 20:28). Instead, this handbook is designed to serve as a tool in that Spirit-led process. It is an aid in discerning the will of the Spirit, first through assessment of the man being considered, and secondly through training for those who appear to be called to serve as Elders. With over 260 study questions, a variety of self-assessment tools, scripture memorization, and “quizzes” to test the candidate's understanding and application of the concepts included, The Elder Training Handbook is a serious-minded tool for discovering, encouraging, and equipping men to shepherd, protect, and lead the New Testament church.

policy toward Latin America. Seeking to protect U.S. national security, American policymakers quietly cultivated relations with politically ambitious Latin American militaries—a strategy clearly evident in the Ford administration’s tacit support of state-sanctioned terror in Argentina following the 1976 military coup d’état. By the mid-1970s, however, the blossoming human rights movement in the United States posed a serious threat to the maintenance of close U.S. ties to anticommunist, right-wing military regimes. The competition between cold warriors and human rights advocates culminated in a fierce struggle to define U.S. policy during the Jimmy Carter presidency. In *The Fate of Freedom Elsewhere*, William Michael Schmidli argues that Argentina emerged as the defining test case of Carter’s promise to bring human rights to the center of his administration’s foreign policy. Entering the Oval Office at the height of the kidnapping, torture, and murder of tens of thousands of Argentines by the military government, Carter set out to dramatically shift U.S. policy from subtle support to public condemnation of human rights violation. But could the administration elicit human rights improvements in the face of a zealous military dictatorship, rising Cold War tension, and domestic political opposition? By grappling with the disparate actors engaged in the struggle over human rights, including civil rights activists, second-wave feminists, chicano/a activists, religious progressives, members of the New Right, conservative cold warriors, and business leaders, Schmidli utilizes unique interviews with U.S. and Argentine actors as well as newly declassified archives to offer a telling analysis

of the rise, efficacy, and limits of human rights in shaping U.S. foreign policy in the Cold War.

The modern day minister faces a multitude of tasks that are both electrifying and challenging. He must conduct funerals and weddings, often on the same day. He must be a shepherd, a scholar, a public speaker, an educator, a CEO, a counselor, and at times a family man. The manual is a breath of fresh air and an invaluable resource.

Dr. Ernestine Battle designed this manual to help identify some of the most basic principles of servant leadership, out of an experience of years as a "participating-observer" in a ministry that did not have a formal training program for its leaders. Every church should have quality people; those who lead, encourage, and direct others to become even greater and more effective Christians. The church needs more women and men who are prepared to

Associate Minister and Church Leader Training Manual  
A Training Manual for Associate Ministers  
Capitol Hill Baptist Church associate pastor Michael Lawrence contributes to the IXMarks series as he centers on the practical importance of biblical theology to ministry. He begins with an examination of a pastor's tools of the trade: exegesis and biblical and systematic theology. The book distinguishes between the power of narrative in biblical theology and the power of application in systematic theology, but also emphasizes the importance of their collaboration in ministry. Having laid the foundation for pastoral ministry, Lawrence uses the three tools to build a biblical theology, telling the entire story of the Bible from five different angles. He puts biblical theology to work in four areas: counseling, missions, caring for the poor, and church/state relations. Rich in application and practical insight, this book will equip pastors and church leaders to think, preach, and do ministry through the framework of biblical theology. Dr. Floyd helps readers understand the nature of crises events, how individuals are impacted, and how to best provide help during and following times of trauma, loss, and grief.

A man who's been transformed by Christ and desires to preach the gospel might say he feels called to be a pastor. This personal conviction, while heartfelt, doesn't acknowledge important, challenging steps necessary to be a qualified leader. So where should full-time ministry begin? In *The Path to Being a Pastor*, Bobby Jamieson explains why it's better to emphasize "aspiration" over "calling" as men pursue the office of elder and encourages readers to make sure they are pastorally gifted before considering the role. He shares from his own eleven-year experience preparing to be a pastor by walking potential leaders through different stages of ministry training, from practical steps—such as cultivating godly ambition and leadership, observing healthy churches, and mastering Scripture—to personal advice on building a strong family and succeeding in seminary. Emphasizing the importance of prayer, godly counsel, and immersion in the local church, Jamieson encourages men to ask Am I qualified? instead of Am I called? when considering a life in ministry.

The ministers and church-workers should be trained well so that they can perform well, and do God's Assignments for them faithfully and satisfactorily. Many are in the ministry today without adequate training, and they have either messed things up or performed, by far, below God's Expectation from them. A minister is not supposed to be a novice, and he is to hold the mystery of the faith with a pure conscience. The Word says, "If you instruct the brethren in these things, you will be a good minister of Jesus Christ, nourished in the Words of Faith and of the Good Doctrine which you have carefully followed" (1 Tim. 4:6).
