In Southeast Europe, the Balkans, and Middle East, scholars often refer to the “peaceful coexistence” of various religious and ethnic groups under the Ottoman Empire before ethnonationalist conflicts dissolved that shared space and created legacies of division. *Post-Ottoman Coexistence* interrogates ways of living together and asks what practices enabled centuries of cooperation and sharing, as well as how and when such sharing was disrupted. Contributors discuss both historical and contemporary practices of coexistence within the context of ethno-national conflict and its aftermath.

"...[This book contains] invaluable material for the child therapist with varied theoretical backgrounds to more confidently apply EMDR to children." --

Frances Klaff, for Journal of EMDR Practice and Research, Volume 3, Number 3, 2009 In this book the authors present an overview of how therapists can get started in conceptualizing psychotherapy with Eye Movement Desensitization and Reprocessing (EMDR) methodology through Adaptive Information Processing (AIP) theory. The focus of the book is to teach therapists to effectively use the entire EMDR protocol with young children. The first chapter provides a comprehensive overview of how to get started with EMDR after completing basic training. The book continues with chapters that detail the basic skills in using EMDR with children and then transitions to more advanced skills in using EMDR with children with specific diagnosis and presenting issues. They follow with a chapter summarizing the published evidence to date supporting the practice of EMDR with children. Data is then incorporated into a chapter summarizing their research on EMDR with young children in order to provide evidence of therapists' ability to adhere to the EMDR protocol with children, and to document their research findings about training therapists to use EMDR with children. Finally, they conclude the

book with goals for the future of EMDR with children while encouraging therapists to consider conducting research in order to compel the practice of EMDR with children into the mainstream of child psychotherapy. It is a major task of the book to inspire therapists to begin thinking about conducting research and how important research is to therapists in order to validate and advance the practice of psychotherapy. In the end, the most significant goal of this book is to provide best practice for children who are in need of expert psychotherapy in order to change the trajectory of their lives. The hope is to provide guidance and support to therapists in order to launch them in their practice of EMDR. This is the art of treating children with EMDR.

"Literature and Weather. Shakespeare – Goethe – Zola" is dedicated to the relation between literature and weather, i.e. a cultural practice and an everyday phenomenon that has played very different epistemic roles in the history of the world. The study undertakes an archaeology of literature's affinity to the weather which tells the story of literature's weathery self-reflection and its creative reinventions as a medium in different epistemic and social circumstances. The book undertakes extensive close readings of three exemplary literary texts: Shakespeare's *The Tempest*, Goethe's *The Sufferings of Young Werther* and Zola's *The Rougon-Macquarts*. These readings provide the basis for reconstructing three distinct formations, negotiating the relationship between literature and weather in the 17th, the 18th and the 19th centuries. The study is a pioneering contribution to the recent debates of literature's indebtedness to the environment. It initiates a rewriting of literary history that is weather-sensitive; the question of literature's agency,

its power to affect, cannot be raised without understanding the way the weather works in a certain cultural formation. Christmas is a time for second chances...and for love. Elizabeth Cranwell's children left home, her husband divorced her and dissolved their shared business, and she's set to spend Christmas alone. Without her husband or the thriving business she spent years of her life building, Elizabeth doesn't know who she is or what to do with her days. She's dreading spending her first Christmas alone when her friends convince her to book a holiday at the Waratah Inn. Robert Patch thought things couldn't get any worse when his only daughter married a controlling and angry man. That was until his grandchildren arrived. When his son-in-law won't allow Robert to stay with them over the holidays Robert does the next best thing and books into a nearby inn so he can see the children. He is pleasantly surprised when he meets a woman who reminds him of the love he lost so many years ago, in a way that reawakens a heart he'd long thought dormant. Filled with memorable characters, from a cheeky possum to a cook who moonlights as an amateur counsellor, this sweet, small-town Christmas story celebrates the camaraderie of a life lived in community and second chances at life and love. A stand-alone, heartwarming Christmas romance for fans of Sheila Roberts, Debbie Macomber and Debbie Mason.

This two volume text provides a comprehensive introduction to the issues, theories and methods of psychology, including both classic approaches and recent research. The areas covered range from the intellectual, social and emotional development of the child to the ways in which adults perceive, attend, remember and communicate; from Freud's psychoanalytic framework to the work of present day psychologists; from debates about the scientific status of psychology to the special problems which the study of people poses for psychologists. Each chapter presents important issues in depth, highlighting controversies while showing that they rarely have neat solutions. Throughout, emphasis is given to the contrasting levels of analysis which contribute to the understanding of psychological functioning, from fundamental biological processes to complex social interactions. While prepared for the Open University course "Introduction to Psychology" these volumes will provide an excellent introduction to students of psychology at other universities and colleges. Belinda and Cody Phipps appear a typical Midwestern couple: teenage sweethearts, children, luxurious home. Typical except that Cody is black--"rich, black, and different," in the words of Belinda, who finds herself attracted to a former (white) classmate. As the battle for her affections is waged, Belinda and Cody frankly doubt the foundation of their initial attraction, opening the door wide to a swath of bigotry and betrayal. Staged on continually shifting moral ground that challenges our received notions about gender, ethnicity, and even love itself, *This Is How It Goes* unblinkingly explores the myriad ways in which the wild card of race is played by both black and white in America.

What are some of the central connections between narrative, systemic and attachment therapies? How do early emotional experiences in families shape our narratives about ourselves and our families? In what ways do family attachments shape our narrative abilities, such as being able to reflect on and integrate our experiences? This book sets out a framework for practice – Attachment Narrative Therapy – that provides a new approach to working with families, couples and individuals. This is not offered as a prescriptive model but as an aid and guide to practice that draws aspects of narrative and attachment therapy into systemic work.

The sheer descriptive verve, page after page, made me want to listen to every single musical example cited. A major achievement - Stephen Hough 'Definitive . . . remarkable. Clark writes intelligently and joyously.' - Mojo In 2003, music journalist Philip Clark was granted unparalleled access to jazz legend Dave Brubeck. Over the course of ten days, he shadowed the Dave Brubeck Quartet during their extended British tour, recording an epic interview with the bandleader. Brubeck opened up as never before, disclosing his unique approach to jazz; the heady days of his 'classic' quartet in the 1950s-60s; hanging out with Duke Ellington, Charlie Parker, Louis Armstrong, and Miles Davis; and the many controversies that had dogged his 66-year-long career. Alongside beloved figures like Ella Fitzgerald and Frank Sinatra, Brubeck's music has achieved name recognition beyond jazz. But finding a convincing fit for Brubeck's legacy, one that reconciles his mass popularity with his advanced musical technique, has proved largely elusive. In *Dave Brubeck: A Life in Time*, Clark provides us with a thoughtful, thorough, and long-overdue biography of an extraordinary man whose influence continues to inform and inspire musicians today. Structured around Clark's extended interview and intensive new research, this book tells one of the last untold stories of jazz, unearthing the secret history of 'Take Five' and many hitherto unknown aspects of Brubeck's early career - and about his creative relationship with his star saxophonist Paul Desmond. Woven throughout are cameo appearances from a host of unlikely figures from Sting, Ray Manzarek of The Doors, and Keith Emerson, to

John Cage, Leonard Bernstein, Harry Partch, and Edgard Varèse. Each chapter explores a different theme or aspect of Brubeck's life and music, illuminating the core of his artistry and genius.
