This book brings to life one of the most exciting eras in American history. In late 1819 Colonel Henry Atkinson led an expedition to explore the wilderness of the Upper Missouri and establish sites for a string of military posts, which would extend successful contacts with the Indians as well as exploit trade with British companies. The result of his efforts was a fort system which played a dramatic and significant role in the opening of the territories of the upper plains and the Rockies.

Founded in 1905, the High River Times served a community of small town advertisers and an extensive hinterland of ranchers and farmers in southern Alberta. Under the ownership of the Charles Clark family for over 60 years, the Times established itself as the epitome of the rural weekly press in Alberta. Even Joe Clark, the future prime minister, worked for the family business. While historians rely heavily on local newspapers to write about rural and small town life, Paul Voisey has studied the influence of the Times on shaping the community of High River.

Publishes in-depth articles on labor subjects, current labor statistics, information about current labor contracts, and book reviews.

Studies of Alberta's newspapers have generally concentrated on better-known newspapers published in major centres and the organs of significant political parties.

In 1931, The Weekly Times newspaper launched a new section dedicated to women's issues. This became an immediate hit, and the column's editor, Miranda, became an instant friend to thousands of women struggling to cope with the Depression. This book follows 70 years of the column that became a social institution.

Modern criminal courts are characteristically the domain of lawyers, with trials conducted in an environment of formality and solemnity, where facts are found and legal rules are impartially applied to administer justice. Recent historical scholarship has shown that in England lawyers only began to appear in ordinary criminal trials during the eighteenth century, however, and earlier trials often took place in an atmosphere of noise and disorder, where the behaviour of the crowd - significant body language, meaningful looks, and audible comment - could influence decisively the decisions of jurors and judges. This collection of essays considers this transition from early scenes of popular participation to the much more orderly and professional legal proceedings typical of the nineteenth century, and links this with another important shift, the mushroom growth of popular news and comment about trials and punishments which occurred from the later seventeenth century. It hypothesizes that the popular participation which had been a feature of courtroom proceedings before the mid-eighteenth century was not stifled by 'lawyerization', but rather partly relocated to the

'public sphere' of the press, partly because of some changes connected with the work of the lawyers. Ranging from the early 1700s to the mid-nineteenth century, and taking account of criminal justice proceedings in Scotland, as well as England, the essays consider whether pamphlets, newspapers, ballads and crime fiction provided material for critical perceptions of criminal justice proceedings, or alternatively helped to convey the official 'majesty' intended to legitimize the law. In so doing the volume opens up fascinating vistas upon the cultural history of Britain's legal system over the 'long eighteenth century'.
