how well we are able to learn and remember. Negative words like "can't" and "hate" can cause you to become stressed and anxious. Negative words send alarm messages through our brains, and they can hinder your ability to think clearly. However, positive words, such as "peace" and "love" have been shown to strengthen our brains. Researchers have found that positive words help us think more clearly and learn more easily. They also help us cope with stress. This is because positive words make us feel better. The words trigger feelings of optimism. Wordsearch puzzles can help boost your child's confidence and improve their vocabulary. And, the Positive Mind Wordsearch puzzle book goes one step further by incorporating specially selected positive words that have been shown to have profound effects on how a child's mind works improving cognitive ability as well as promoting a more positive attitude. It sounds simple. And, it is. Yet it is true! Scientists have discovered that positive words really do have the power to stimulate mood centres in our brains which boost creativity and trigger feelings of confidence, optimism and positivity, and this makes us more resilient to stress. The Positive Mindset WordSearch Puzzlebook For Kids is a great way to help your child focus on positive words; the puzzles are a practical and fun way to give their brain a positive charge to combat any negativity they may be experiencing, whether at home or at school. Just completing a single Positivity Wordsearch puzzle a day may be all they need to help them think more clearly, express their creativity, boost their self-esteem and develop a more positive mindset.
